

Award Opportunity: Vermont Lottery Educate Innovate Initiative

Audience: Superintendents, Principals, Technology Directors, Curriculum Directors, Educators, Librarians

Through a partnership with the Vermont Lottery, AOE announces the 2023 round of a competitive award program that seeks to further school education technology programs. Proposals should showcase a practical and deliberate use of technology for increasing student engagement and learning in the creation of meaningful proficiency-based and personalized learning. This program aims to support educators from all content areas to create connections between students and curriculum content using technology. Two schools will receive awards of \$15,000 each. The funding for this program comes directly from Vermont Lottery program funds, not from lottery proceeds. The deadline to apply is April 19, 2023. Obtain an award application on the [Education Technology webpage](#).
