

POLICY P2

Policy on Conditional Emergency License for Lapsed Retired Educators

An applicant who is a retired educator whose Vermont Educator license lapsed between five (5) to ten (10) years ago can be granted an emergency license in conjunction with Rule 5360 B in the requested endorsement area.

Currently, VSBPE has Rule 5360 B in effect since August 21, 2018. This new policy extends that lapsed license time from five (5) to ten (10) years with the understanding that the candidate has no intention of reinstating the endorsement.

It is the understanding of the candidate that the emergency license is conditional and would not be extended a second year. If the educator wished to continue in the position, then the next step would be a Povisional License, as long as the application was within the parameters of the requirements for a Provisional License.

This policy allows the "Office" to ability to grant these requests. This policy will be revisited after two years.
