

JUSTICE *FOR* ALL

Founded in the 2021-2022  
School Year

## MISSION STATEMENT:

The ***Justice For All Club*** strives to create and preserve a climate in which everyone is accepted and appreciated for who they are no matter what gender, gender identity, age, race, ethnicity, language, or abilities with which they may be associated.

The club members read the book *March: Book One*--co-authored by Andrew Ayden and the late Congressman John Lewis. They discussed it in anticipation of hosting the author with the Vermont Humanities Council at the Paramount Theater.

**Two of our  
members were  
invited to be on  
the panel with  
the author...**

**They posed questions formulated after the club's reading of the book. The event was in-person and live-streamed.**

**We amplify the work of other clubs and activities.**
