

VSBPE

Date: Oct. 19, 2023

Item: Substantive Change of In-Person vs Remote for approved EPPs

ITEM: Shall the VSBPE consider a change of course delivery method to be a substantive change that would require approval by the Agency or the Standards Board?

AGENCY RECOMMENDED ACTION:

That the VSBPE determine that a change of delivery method should not constitute a substantive change that would require approval by the Agency or Standards Board, assuming that all other course elements remain the same as when the program was approved.

BACKGROUND:

Several EPPs have been or are contemplating changes to course delivery, from in-person to remote (synchronous or asynchronous). The question has arisen as to whether that change is considered substantive and thus would need approval from the VSBPE.

SUPPORTING DOCUMENTS:

None.
