21st Century Community Learning Centers Grant Competition 2017-2018 Final Results

The 2017-18 round of 21c funding remained very competitive. There were 18 applications requesting over \$4,000,000, with approximately \$2,600,000 million dollars available for distribution. Investments are for five years, assuming federal funds exist and performance objectives are met.

There were three parts to the review process. In phase one, each proposal was reviewed by five readers/panelists who assigned points and comments to each section of the application using criteria that were specified in a scoring guide.

In phase two of the process, proposals were then re-reviewed a second time within a panel of nine experts in education, afterschool programs, and organizational leadership. Panelists were asked to reanalyze the scores and comments, make decisions on each application and set conditions for funding an application, if necessary.

The third and final step of the process was that the Agency of Education (AOE) reviewed the panel’s work, compiled results, lightly edited panelist comments, and assured that all conditions for funding were met. A brief summary of the final application status follows.
