

2022-2023 21C Monitoring-Peer Review Process

The following pages outline the VT21C monitoring process. Participation is required annually for selected VT21C grantees. In Vermont, we also use the phrase “peer review” or “site visit” process to describe the monitoring process as a core tenet includes visiting teams made up of afterschool project directors who are fully encouraged to participate in all aspects of the process. Projects and sites are selected and prioritized based on an annual assessment of need that takes multiple factors into consideration. New sites are always selected within the second half of their first year of programming. In addition, selected projects receive an associated summer program visit. In 2022, barring any unforeseen environmental or safety changes due to the pandemic, activity related to this process will include onsite program visits, with interview portions able to be completed remotely or on-site.

Area	Full Project Review
Purpose	Project level assessment
Notification	By July 1, 2022
Timing	Per risk assessment, generally once every three years
Process	Set in advance
Visiting team members	Typically 3-5 members
Preparation Time	Several hours by the project director
Overview of Process	All documents posted on a shared, agenda created, coordination of schedule with multiple stakeholders, self-assessments completed. Follow-up and report posted and tracked in the Grants Management System (GMS).
Visit Day(s) can vary depending on program start time	<p>If visit is in person a typical schedule is: 9:45 a.m.- 5.30 p.m. interviews and site visits to multiple sites with typical team of 3-5</p> <p>If virtual: Interviews occur across the day with large breaks from 8:30-3:00 p.m.; exact schedules to be determined. Sometimes interviews may be remote one day with live program visits in the afternoon(s) near the interview date.</p>
Post Visit Report	Full project report including observation component Follow up actions listed in each report

The spirit of the design above is to work collaboratively with the Vermont Agency of Education, VT21C staff from the field, and others on the local level to address the continuous improvement of each 21C funded afterschool and summer program. Consider joining a team or having staff join a team for a unique and useful full day professional development experience.

Goals

1. To provide accountability and oversight as required by law
2. To provide projects with an on-going opportunity to reflect on their practice
3. To promote regular dialog and information sharing with and among projects

If any changes or new requirements are made to the process prior to visit dates, grantees will be notified.

Project Review: What do I need to do?

1. **Lock in the date(s) for a site visit.** Emanuel Betz at 802-828-6977 [Emanuel Betz](#) will set up an initial on-line *Teams meeting* to go over the process with you two months before the visit day(s). Meetings with visiting teams generally run in the time schedule listed above. An ongoing list of projects and dates can be viewed for sign up annually, which are advertised thorough the 21C listserv.
2. **Prepare supporting materials.** Documentation will be housed online. Programs will need to gather and post a variety of documents and materials to inform the peer review process. These items fall into three basic categories: (i) Required documents; (ii) Online Afterschool Quality Self-Assessments; (iii) Budget actuals from the business office
 - i. **Posting required documents-** all projects must include the following documents as part of their review. These items must be submitted electronically in the designated location prior to the scheduled visit day. These materials will be shared with all members of the visiting team and will serve to familiarize team members with your program.
 - A. **Program Policies and Procedures-** Provide a copy of your program policy handbooks including program staff and parent handbooks, and safety policies. and (send emergency protocols information only via email to Emanuel Betz).
 - B. **Evaluation Documents:** Include any project evaluation plan documents and any copies of surveys or other evaluation documents you have.
 - C. **Sustainability Plan:** Provide your most recent sustainability plan.
 - D. **Program Brochures:** Include current program brochures and registration forms.

- E. Governance Documents- provide a list of all members of your governance/advisory team and any other info including such as meeting dates or meeting minutes (please provide names as well as affiliations) Include sample handouts or documents related to school board meetings, if available
 - F. Job descriptions and expectations: Include any job descriptions and specific documents related to staff expectations if they are not included in any staff manual or grant application
 - G. Instructional planning: Include any documents from this area including program-planning tools.
 - H. Promotional materials: Include any newspaper articles, awards, or other PR documentation.
 - I. Digital Content: Include links to any program web sites, video, Facebook, or other pertinent digital content the program has produced.
- ii. **Afterschool Quality Assessment Tool** - Using the tool below via an e-form link, rate your project in each of the ten quality areas. At a minimum the director, all site coordinators and at least one third 'party' should complete the self-assessment. When producing a rating, note that the column for “Comments/Action Steps” provides the most useful information for the team so have people write out comments.
 - iii. **Budget Update and Expenditure Report**- Provide a budget using a printout of actual revenue and expenditures to-date (since July 1, 2022) from the business office accountant. Include at least one detailed accounting record of two cost centers (E.g., supplies, staffing, etc.)
2. **Set a meeting agenda.** Create an agenda in collaboration with AOE around a month before the visit starting with a 2 hr. meeting with the 21C Director, followed by meetings with individual key partners (e.g., teachers, parents, students, advisory board members, site coordinators, leaders), and a program visit. For in person visits if allowable: If you have multiple sites, the team will likely split at program time to visit multiple sites; with a minimum of 1-hour on-site time at each school. Have student ambassador(s) at each site to advise the team for a portion of the visit or include “student voice” in another meaningful fashion. If all or a representative majority of sites cannot be visited in one day, additional days may be set up to visit programs.

Sample Agenda Template

9:45	Arrival
10:00-12:00	Meeting with the Project Director (business manager joins at 11:45)
12:00-12:30	Lunch: no meetings (everyone brings lunch)
12:30-1:15	Site Coordinators for multi-site projects or interviews
1:15- 2:30	Rolling individual interviews (e.g., principal, staff, partner(s), students, parents) or small group interviews each at 20-30 minutes. Travel to sites
2:50-5:00	Visit programs (for in-person visits)
5:15-5:30	Debrief and exit conference with Director

Generally, interviews will begin with questions around project success and challenges, the interviewees' association with the project and role, and then questions that drill into the selected areas of inquiry. Any interviewee may be asked questions that pertain to any of the areas in the grid below. Conversations and questions tend to flow through many but not necessarily all of the areas, sometimes in a non-linear fashion. Each area has core question prompts that can be used for preparation. Additional questions inclusive of or beyond the question prompts are asked as part of conversation. If a selected area is not explicitly covered during the interview times, the items will be covered in the follow-up meeting that AOE set-ups with each director within two weeks of the visit.

1. **Host Visiting Team.** AOE will form a visiting team to come to your site(s) and/or participate virtually on your selected date(s). The visiting team will be made up of 21C Directors or site coordinators, AOE staff, and may have other professionals and practitioners working in the afterschool, youth development, or education fields. Do not adapt or change schedules or your normal operating procedure or standard approaches on the visit day. This is very important. Visiting teams understand afterschool, its challenges and daily realities and observing normal operation or adaptability to changing conditions is essential for objectivity and quality. Experience shows too that intentionally changing routines tends to backfire as well.

Receive a report. Within two weeks of the visit, you will receive a report (see below) outlining the visiting team's comments, recommendations, priority action items, and findings. After receiving this report, read through the report and identify action steps to address suggestions or implement changes as needed. There will be a period of time to accept the report. Once the report is finalized, the report and follow-up items will be available on the Grants Management System. You will also likely receive a follow-up phone call or email and/or have a meeting as needed from AOE to go over the visiting team's report, to answer any questions, and to discuss follow-up if needed on required action steps.

Vermont 21st Century Community Learning Centers (VT21C) 2022-23 Report Template

An E-Form link will be used to guide the process, track data, and create a report inclusive of these categories, questions, and data points. The form may be changed in real time to track emergent data, questions, or needs. Grantees will always be notified of any changes.

The focus of the peer review process will use the 21C state evaluation plan goals as its framework along with additionally selected focus items* for 2022-23. Associated recent Annual Performance Report (APR) questions and data points will inform the agenda and questions, with the APR report serving as a baseline data set. In addition, completed self-assessments will inform the categories below and the analysis, as will past AOE responses to recent Annual Performance Reports.

Overview narrative:

Response to this report: Please submit a written response to [Emanuel Betz](#). The response should include detailed steps and timeline for addressing each of the ‘*Findings*’ and “*Priority Action Items*” by the date indicated. Recommendations and comments do not require a formal response. See *definitions* below to guide your thinking on how to interpret this report. Items are numbered within each column from top to bottom.

Definitions:

- **Findings:** Steps that need to be taken immediately to be in compliance with a law or regulation.
- **Priority Action Items:** Action items requiring follow-up by the grantee to meet a 21C afterschool standard.
- **Recommendations:** Recommendations are judgments that could be classified as “strong suggestions.” They do not require action on the part of a project.
- **Comments:** Comments are suggestions generated from the team or from observations that warrant sharing. No action is required of a comment.

Program Observations

Site:

During programming time, team members will observe programming. Team members will observe and take objective factual notes of what is observed. After the visit, these observations will be transferred into the categories in chart below, and an analysis will be added, based on observations.

1. Youth observations/actions	
2. Staff observations/actions	
3. Observations of physical climate, space, set up, and available equipment/materials	
4. Observations on the schedule, transitions, and flow	
5. Other observations	
6. Youth Leadership (check if any observed)	Leading _____ Presenting _____ Facilitating _____ Planning _____ Collaborative Problem Solving _____ Collaborative Team-Work _____ Persevering _____ Reflecting/Evaluating _____ Logical Reasoning _____
7. Persistent Youth Negativity (check if any observed)	Arguing _____ Complaining _____ Not doing/Not Interested _____
8. Commentary/Analysis by reviewer	

Afterschool Quality Self-Assessment Tool

This Tool will be filled out using an E- Form with questions below targeting particular questions to role. Use the tables below to rate your afterschool program in each of the ten quality areas: (1) Afterschool Program Leadership; (2) Linkages to the School Day; (3) High-Quality Staff; (4) Safe and Appropriate Environment; (5) High-Interest Programming and Youth Engagement; (6) School Leadership Support; (7) Relationships with Children/Youth and their Families; (8) Instructional Leadership; (9) Flexible Structures and Student Choice; and (10) Community Partnerships and Sustainability. For each row in the table, read the expectation and circle a number representing how your program meets that specific expectation. A score of 1 signifies an area where your program is in need of significant improvement. A score of 3 signifies a mid-level rating. A score of 5 signifies an area where your program fully meets or exceeds the expectation. If you do not know an answer to a question due to your role, put in an NA. It would be normal to expect that every program would have some low scores. Be sure to include comments. In many ways, these are more helpful for reviewers than scores.

I. Afterschool Program Leadership
