
FY24 Title IVA Progress on Objectives Report

Purpose

Each State that receives an allotment under Title IV Part A (ESEA §4103) for a fiscal year must publicly report on how these funds are being expended by Local Education Agencies (LEAs), as well as the degree to which the LEAs have made progress towards meeting the objectives and outcomes described in the Title IVA grant applications. Below are LEA progress updates, as reported by LEAs, that describe progress made toward objectives and outcomes for approved activities in the FY24 grant application under each content area of the Title IVA grant. **These reports are only regarding activities funded using federal Title IV Part A funds and should not be considered a reflection of an LEA's overall progress toward these intents.** For those LEAs reporting “1. Our activities **never** met our expected objectives and outcomes;” or “2. Our activities **sometimes** met our expected objectives and outcomes,” additional explanations can be found under the additional progress notes section.

Definitions

LEAs were instructed to use the following definitions to complete their reporting.

- 0. = No investments written.
- 1. = Our activities **never** met our expected objectives and outcomes.
- 2. = Our activities **sometimes** met our expected objectives and outcomes.
- 3. = Our activities **frequently** met our expected objectives and outcomes.
- 4. = Our activities **always** met our expected objectives and outcomes.
- 5. = Our activities **exceeded** our expected objectives and outcomes.

Reporting Exemptions

Please note that some LEAs consolidate the entirety of their Title IVA grant funds into their Schoolwide pool and in doing so those funds “lose” their identity as Title IVA funds, which exempts them from this Title IVA reporting. This is also the case for LEAs that transfer all of their Title IVA grant funds into Title IA or Title IIA. These LEAs are noted under the LEA Progress Updates Chart with an *Exempt.

Additional Progress Notes

For LEAs reporting “no measurable progress” or “some measurable progress” in any of the Title IVA content areas, additional explanations are provided below. These reports are only regarding activities funded using federal Title IVA funds and should not be considered a reflection of an LEA’s overall progress toward these intents.

LEA Name	Content Area	Notes
Bennington-Rutland Supervisory Union	Effective Use of Technology	We were unable to identify staff members who were willing to attend and participate in the desired events that are articulated in the investment language. No funds were expended.
Central Vermont Supervisory Union	Safe and Healthy Students	For investments 32, 33 and 34, we were unable to secure Response Classroom training regionally and teachers did not want to do a virtual format-these funds were not used

LEA Name	Content Area	Notes
Colchester School District	Well-Rounded; Safe and Healthy Students; Effective Use of Technology	<p>One of the Safe & Healthy Schools strategies, Equity PD, was canceled so the team was unable to attend and bring back information to school-based teams. The team used other equity resources but was unable to complete one of the strategies.</p> <p>One of the Well Rounded strategies, EL/ML liaison, was advertised but we were unable to hire a liaison for grades K-5. The district was able to contract with an outside organization for liaison services for grades 6-12, but liaison support for the elementary grades went unmet.</p>
Greater Rutland County Supervisory Union	Well-Rounded; Safe and Healthy Students; Effective Use of Technology	<p>We struggled to engage schools in funding activities (WR & S & H) through Title IV this year as they also still had access to ESSER enrichment funding which required less paperwork and less advance planning. All targeted schools increased opportunities for students in these areas. Some schools were able to take advantage of the Title IV funds to do so - others used other funding sources.</p> <p>Our EUT investment was not fully implemented due to lack of staff capacity to prioritize this work as planned after unexpected budget controversies began across the state and caused significant additional work for administrators and leadership teams.</p>

LEA Name	Content Area	Notes
Hartford School District	Effective Use of Technology	It was simply hard to find the time to incorporate additional professional development in digital literacy for teachers and challenging to add another thing to their already full plates.
Lamoille North Supervisory Union	Effective Use of Technology	Finding tech support providers and scheduling the learning proves to be very difficult. Either expertise is lacking, time is lacking, or both.
Mount Abraham Unified School District	Well-Rounded; Effective Use of Technology	<p>Well-Rounded: We originally had an investment to send a team to Solution Tree's RTI Summit to provide professional learning, ideas and resources to further our MTSS as well as Equity and Inclusion work. Unfortunately, we were unable to get a representative team to commit to attending the experience as it was out of state and fell during our school vacation.</p> <p>Technology: Our MakerSpace didn't require much by way of new technology equipment or new ways of integrating what we have so there were few expenses purchased from that area.</p>
Rutland Northeast Supervisory Union	Effective Use of Technology	RE: Content Area 3: Effective Use of Technology - place of Powerschool Analytics, we purchased Educlimber through a different funding source. The Educlimber package that we chose included professional development.

LEA Name	Content Area	Notes
St Johnsbury School District	Safe and Healthy Students	For the LEA's public school we met our expected outcomes, but our Independent schools did not meet some of their desired outcomes for Title IVA funds for one reason: they were unable to staff positions until later in the year. The work they intended to do to support Safe & Healthy Schools around SEL did not begin until the end of May 2024. Also, unable to staff their investment to hire a foreign language teacher as part of their Well Rounded investment.
Windham Central Supervisory Union	Effective Use of Technology	The person who took the PD left the district before completing the entire course which had to be paid for upfront. During their employment, they did apply skills from the course to improve data analysis and improve systems for data management.
