

# Vermont Career Technical Education (CTE) Program Critical Proficiencies

## Carpentry, Construction, Building Trades CTE Programs

The Critical Proficiencies identify the essential knowledge, skills, and abilities that VT CTE students need to demonstrate (1) to be program completers, and (2) to be prepared for future learning. Critical proficiencies promote high expectations for all students, and support students' personal, professional, and academic development. At the high school level, VT's Proficiency-Based Graduation Requirements (PBGRs) reflect the critical proficiencies that lead to postsecondary career and college readiness.

For each of the unique program areas which categorize VT's CTE programs, the proficiency template includes:

- Program-Area Descriptions
- Career Ready Practices
- Career Cluster(s) and Pathway(s)
- Anchor Standards
- Program Technical Standards
- Academic Alignment
- CTE Program Elements

### Advance CTE Common Career Technical Core - Career Ready Practices

The Common Career Technical Core (CCTC) is a state-led initiative to establish a set of rigorous, high-quality standards for Career Technical Education (CTE). The CCTC includes a set of standards for each Career Cluster® and corresponding Career Pathways that define what students should know and be able to do after completing instruction in a program of study. The CCTC also includes an overarching set of Career Ready Practices that apply to all programs of study. The Career Ready Practices include statements that address the knowledge, skills, and dispositions that are important to becoming career ready.

The Career Ready Practices were developed from a state-led initiative sponsored by the National Association of State Directors of Career Technical Education Consortium (NASDCTEC).

Career Ready Practices describe the career-ready skills that educators should seek to develop in their students. These practices are not exclusive to a Career Pathway, program of study, discipline, or level of education. Career Ready Practices should be taught and reinforced in all career exploration and preparation programs with increasingly higher levels of

complexity and expectation as a student advances through a program of study.  
(NASDCTEC, 2012)

#### The Career Ready Practices

- are applicable across all program areas.
- align with the VT Transferable Skills Proficiency-Based Graduation Requirements (PBGRs) and VT Portrait of a Graduate.
- are the *transferable skills* of the Common Career Technical Core and the *portrait* of a VT CTE program completer.

#### **Advance CTE Common Career Technical Core - Career Cluster and Pathway Standards**

The Common Career Technical Core is divided into Career Cluster and Pathway standards. Each Career Cluster contains one or more pathways with pathway-specific technical standards. The template shows which CCTC Career Cluster and Pathway standards are relevant to VT CTE programs.

#### **Anchor Standards**

The Anchor Standards build upon the Career Ready Practices and show the overarching standards categories which are common across all technical programs within their Career Cluster(s) and Pathway(s). The VT CTE Anchor Standards are derived from and align with the CCTC Anchor Standards.

#### **Program Technical Standards**

The Program Technical Standards build on and continue the Anchor Standards with more complexity, rigor, and career specificity. Knowledge and skills are learned and applied within a standards-based CTE program that integrates classroom, laboratory, and work-based instruction. The VT CTE Program Technical Standards are tailored to the unique characteristics and structure of each of the program areas.

#### **Academic Alignment**

Each program-area template includes academic alignment with the VT Content-Area Sample Graduation Proficiencies as part of VT's Proficiency-Based Graduation Requirements (PBGRs). These include Common Core State Standards in English Language Arts and Mathematics, Next Generation Science Standards, as well as other adopted national and state academic standards.

**VT Carpentry, Construction, Building Trades CTE Programs**

Students in **Carpentry, Construction, and Building Trades** programs have in-depth, hands-on experiences in safety, hand, and power tools; specifications and building materials; construction, framing, and finishing; fabrication and assembly of wood products and related materials.

The standards in this program area are designed to prepare students for technical training, postsecondary education, and/or entry-level employment in the carpentry and construction industries. Students engage in an instructional program that integrates academic and technical preparation, career exploration, and preparation for postsecondary education and/or training. Knowledge and skills are learned and applied within a standards-based CTE program that integrates classroom, laboratory, and work-based instruction.

**Advance CTE Common Career Technical Core - Career Ready Practices**

<b>Advance CTE Common Career Technical Core - Career Ready Practices:</b>	Aligned with <a href="#">VT Transferable Skills</a> Proficiency-Based Graduation Requirements (PBGRs) and <a href="#">VT Portrait of a Graduate</a>
<b>1. Act as a responsible and contributing citizen and employee.</b>	Career-ready individuals understand the obligations and responsibilities of being a member of a community, and they demonstrate this understanding every day through their interactions with others. They are conscientious of the impacts of their decisions on others and the environment around them. They think about the near-term and long-term consequences of their actions and seek to act in ways that contribute to the betterment of their teams, families, community, and workplace. They are reliable and consistent in going beyond the minimum expectation and in participating in activities that serve the greater good.
<b>2. Apply appropriate</b>	Career-ready individuals readily access and use the

<p><b>Advance CTE Common Career Technical Core - Career Ready Practices:</b></p>	<p>Aligned with <a href="#">VT Transferable Skills</a> Proficiency-Based Graduation Requirements (PBGRs) and <a href="#">VT Portrait of a Graduate</a></p>
<p><b>academic and technical skills.</b></p>	<p>knowledge and skills acquired through experience and education to be more productive. They make connections between abstract concepts with real-world applications, and they make correct insights about when it is appropriate to apply the use of an academic skill in a workplace situation.</p>
<p><b>3. Attend to personal health and financial well-being.</b></p>	<p>Career-ready individuals understand the relationship between personal health, workplace performance, and personal well-being; they act on that understanding to regularly practice healthy diet, exercise, and mental health activities. Career-ready individuals also take regular action to contribute to their personal financial wellbeing, understanding that personal financial security provides the peace of mind required to contribute more fully to their own career success.</p>
<p><b>4. Communicate clearly and effectively and with reason.</b></p>	<p>Career-ready individuals communicate thoughts, ideas, and action plans with clarity, whether using written, verbal, and/or visual methods. They communicate in the workplace with clarity and purpose to make maximum use of their own and others' time. They are excellent writers; they master conventions, word choice, and organization, and use effective tone and presentation skills to articulate ideas. They are skilled at interacting with others; they are active listeners and speak clearly and with purpose. Career-ready individuals think about the audience for their communication and prepare accordingly to ensure the desired outcome.</p>
<p><b>5. Consider the environmental, social, and economic impacts of decisions.</b></p>	<p>Career-ready individuals understand the interrelated nature of their actions and regularly make decisions that positively impact and/or mitigate negative impact on other people, organization, and the environment. They are aware of and utilize new technologies, understandings, procedures, materials, and regulations affecting the nature of their work as it relates to the impact on the social condition, the environment, and the profitability of the organization.</p>
<p><b>6. Demonstrate creativity and innovation.</b></p>	<p>Career-ready individuals regularly think of ideas that solve problems in new and different ways, and they contribute those ideas in a useful and productive manner to improve their organization. They can consider unconventional ideas</p>

<p><b>Advance CTE Common Career Technical Core - Career Ready Practices:</b></p>	<p>Aligned with <a href="#">VT Transferable Skills</a> Proficiency-Based Graduation Requirements (PBGRs) and <a href="#">VT Portrait of a Graduate</a></p>
	<p>and suggestions as solutions to issues, tasks or problems, and they discern which ideas and suggestions will add greatest value. They seek new methods, practices, and ideas from a variety of sources and seek to apply those ideas to their own workplace. They take action on their ideas and understand how to bring innovation to an organization.</p>
<p><b>7. Employ valid and reliable research strategies.</b></p>	<p>Career-ready individuals are discerning in accepting and using new information to make decisions, change practices, or inform strategies. They use reliable research processes to search for new information. They evaluate the validity of sources when considering the use and adoption of external information or practices in their workplace situation.</p>
<p><b>8. Utilize critical thinking to make sense of problems and persevere in solving them.</b></p>	<p>Career-ready individuals readily recognize problems in the workplace, understand the nature of the problem, and devise effective plans to solve the problem. They are aware of problems when they occur and take action quickly to address the problem; they thoughtfully investigate the root cause of the problem prior to introducing solutions. They carefully consider the options to solve the problem. Once a solution is agreed upon, they follow through to ensure the problem is solved, whether through their own actions or the actions of others.</p>
<p><b>9. Model integrity, ethical leadership, and effective management.</b></p>	<p>Career-ready individuals consistently act in ways that align personal and community-held ideals and principles while employing strategies to positively influence others in the workplace. They have a clear understanding of integrity and act on this understanding in every decision. They use a variety of means to positively impact the directions and actions of a team or organization, and they apply insights into human behavior to change others' actions, attitudes, and/or beliefs. They recognize the near-term and long-term effects that management's actions and attitudes can have on productivity, morals, and organizational culture.</p>
<p><b>10. Plan education and career paths aligned to personal goals.</b></p>	<p>Career-ready individuals take personal ownership of their own education and career goals, and they regularly act on a plan to attain these goals. They understand their own career interests, preferences, goals, and requirements. They have perspective regarding the pathways available to them and</p>

<p><b>Advance CTE Common Career Technical Core - <a href="#">Career Ready Practices</a>:</b></p>	<p>Aligned with <a href="#">VT Transferable Skills</a> Proficiency-Based Graduation Requirements (PBGRs) and <a href="#">VT Portrait of a Graduate</a></p>
	<p>the time, effort, experience, and other requirements to pursue each, including a path of entrepreneurship. They recognize the value of each step in the education and experiential process, and they recognize that nearly all career paths require ongoing education and experience. They seek counselors, mentors, and other experts to assist in the planning and execution of career and personal goals.</p>
<p><b>11. Use technology to enhance productivity.</b></p>	<p>Career-ready individuals find and maximize the productive value of existing and new technology to accomplish workplace tasks and solve workplace problems. They are flexible and adaptive in acquiring new technology. They are proficient with ubiquitous technology applications. They understand the inherent risks - personal and organizational - of technology applications, and they take actions to prevent or mitigate these risks.</p>
<p><b>12. Work productively in teams while using cultural global competence.</b></p>	<p>Career-ready individuals positively contribute to every team, whether formal or informal. They apply an awareness of cultural differences to avoid barriers to productive and positive interaction. They find ways to increase the engagement and contribution of all team members. They plan and facilitate effective team meetings.</p>

**Advance CTE Common Career Technical Core - [Architecture and Construction](#) Career Cluster and Pathway Standards**

<p><b>The following Career Cluster and Pathway standards are relevant to VT Carpentry, Construction, Building Trades CTE programs:</b></p>	<p>This Career Cluster® is focused on careers in designing, planning, managing, building and maintaining the built environment.</p>
<p><b>Architecture and Construction Career Cluster</b></p>	<ol style="list-style-type: none"> <li>1. Use vocabulary, symbols, and formulas common to architecture and construction.</li> <li>2. Comply with regulations and applicable codes.</li> <li>3. Read, interpret, and use technical drawings, documents, and specifications to plan a project.</li> <li>4. Describe career opportunities and means to achieve those opportunities in construction career pathways.</li> </ol>

<b>The following Career Cluster and Pathway standards are relevant to VT Carpentry, Construction, Building Trades CTE programs:</b>	This Career Cluster® is focused on careers in designing, planning, managing, building and maintaining the built environment.
<b>Construction Pathway</b>	1. Safely use and maintain appropriate tools, machinery, equipment, and resources to accomplish construction project goals.

### VT CTE Program Anchor Standards

<b>Anchor Standards:</b>	Aligned with Advance CTE Common Career Technical Core - Career Cluster Anchor Standards
<b>1. Academics</b>	Achieve additional academic knowledge and skills required to pursue the full-range of career and postsecondary education opportunities.
<b>2. Communication</b>	Acquire and accurately use terminology and information at the career and college readiness level for communicating effectively in oral, written, and multimedia formats.
<b>3. Problem Solving and Critical Thinking</b>	Conduct short, as well as more sustained, research to create alternative solutions to answer a question or solve a problem using critical and creative thinking; logical reasoning, analysis, inquiry, and problem-solving techniques.
<b>4. Technology</b>	Use existing and emerging technology to investigate, research, and produce products and services, including new information, as required in the workplace environment.
<b>5. Systems (Responsibility and Flexibility)</b>	Initiate, and participate in, a range of collaborations to demonstrate behaviors that reflect personal and professional responsibility, flexibility, and respect in the workplace environment and community settings.
<b>6. Health and Safety</b>	Demonstrate health and safety procedures, regulations, and personal health practices and determine the meaning of symbols, key terms, and domain-specific words and phrases as related to the workplace environment.
<b>7. Leadership and Teamwork</b>	Work with peers to promote divergent and creative perspectives, effective leadership, group dynamics, team and individual decision making, benefits of workforce diversity, and conflict resolution.

<b>Anchor Standards:</b>	Aligned with Advance CTE Common Career Technical Core - Career Cluster Anchor Standards
<b>8. Ethics and Legal Responsibilities</b>	Practice professional, ethical, and legal behavior, responding thoughtfully to diverse perspectives and resolving contradictions when possible, consistent with applicable laws, regulations, and organizational norms.
<b>9. Career Planning and Management</b>	Integrate multiple sources of career information from diverse formats to make informed career decisions, solve problems, and manage personal career plans.
<b>10. Technical Knowledge and Skills</b> (see Program Technical Standards)	Apply essential technical knowledge and skills common to the Career Cluster and Pathway(s), following procedures when carrying out experiments and/or performing technical tasks.
<b>11. Demonstration and Application</b> (see CTE Program Elements)	Demonstrate and apply technical knowledge and skills across a variety of CTE-specific opportunities in classroom, laboratory, and workplace settings.

### VT Carpentry, Construction, Building Trades CTE Program Technical Standards

<b>Program Technical Standards:</b> Aligned with NCCER CORE, Carpentry Levels 1 & 2	Standards for each career path build on and continue the Anchor Standards with more complexity, rigor, and career specificity.
<b>NCCER CORE</b>  <b>1. Basic Safety (Construction Site Safety Orientation)</b>	<ul style="list-style-type: none"> <li>a. Describe the importance of safety, the causes of workplace incidents, and the process of hazard recognition and control.</li> <li>b. Describe the safe work requirements for elevated work, including fall protection guidelines.</li> <li>c. Identify and explain how to avoid struck-by and caught-in-between hazards.</li> <li>d. Identify common energy-related hazards and explain how to avoid them.</li> <li>e. Identify and describe the proper use of personal protective equipment (PPE).</li> <li>f. Identify and describe other specific job-site safety hazards.</li> </ul>
<b>2. Introduction to Construction Math</b>	<ul style="list-style-type: none"> <li>a. Identify whole numbers and demonstrate how to work with them mathematically.</li> <li>b. Explain how to work with fractions.</li> <li>c. Describe the decimal system and explain how to work with decimals.</li> </ul>

<p><b>Program Technical Standards:</b> Aligned with NCCER CORE, Carpentry Levels 1 &amp; 2</p>	<p>Standards for each career path build on and continue the Anchor Standards with more complexity, rigor, and career specificity.</p>
	<ul style="list-style-type: none"> <li>d. Identify various tools used to measure length and show how they are used.</li> <li>e. Identify units of length, weight, volume, and temperature; explain use of the metric system.</li> <li>f. Identify basic angles and geometric shapes and explain how to calculate their area and volume.</li> </ul>
<p><b>3. Introduction to Hand Tools</b></p>	<ul style="list-style-type: none"> <li>a. Identify and explain how to use various types of hand tools.</li> <li>b. Identify and describe how to use various types of measurement and layout tools.</li> <li>c. Identify and explain how to use various types of cutting and shaping tools.</li> <li>d. Identify and explain how to use other common hand tools.</li> </ul>
<p><b>4. Introduction to Power Tools</b></p>	<ul style="list-style-type: none"> <li>a. Identify and explain how to use various types of power drills and impact wrenches.</li> <li>b. Identify and explain how to use various types of power saws.</li> <li>c. Identify and explain how to use various grinders and grinder attachments.</li> <li>d. Identify and explain how to use miscellaneous power tools.</li> </ul>
<p><b>5. Introduction to Construction Drawings</b></p>	<ul style="list-style-type: none"> <li>a. Identify and describe various types of construction drawings, including their fundamental components and features.</li> </ul>
<p>NCCER Carpentry 1</p> <p><b>6. Introduction to Construction Drawings, Specifications, and Layout</b></p>	<ul style="list-style-type: none"> <li>a. Describe the types of drawings usually included in a set of plans and describe the information found on each type.</li> <li>b. State the purpose of written specifications.</li> <li>c. Identify the methods of squaring a building..</li> </ul>
<p>NCCER CORE</p> <p><b>7. Basic Employability Skills</b></p>	<ul style="list-style-type: none"> <li>a. Describe the opportunities in the construction business and how to enter the construction workforce.</li> <li>b. Explain the importance of social skills and identify ways good social skills are applied in the construction trade.</li> </ul>

<p><b>Program Technical Standards:</b> Aligned with NCCER CORE, Carpentry Levels 1 &amp; 2</p>	<p>Standards for each career path build on and continue the Anchor Standards with more complexity, rigor, and career specificity.</p>
<p><b>8. Introduction to Material Handling</b></p>	<ul style="list-style-type: none"> <li>a. Describe the basic concepts of material handling and common safety precautions.</li> <li>b. Identify various types of material handling equipment and describe how they are used.</li> </ul>
<p><b>NCCER Carpentry 1</b> <b>9. Orientation to the Trade</b></p>	<ul style="list-style-type: none"> <li>a. Identify the career and entrepreneurial opportunities within the carpentry trade.</li> <li>b. Identify the skills, responsibilities, and characteristics needed to be a successful carpenter.</li> <li>c. Summarize how to be connected to the industry through an organization like SkillsUSA.</li> <li>d. Explain the importance of safety in the construction industry, and describe the obligations of the contractor, subcontractors, and you to ensure a safe work environment.</li> </ul>
<p><b>10. Building Materials, Fasteners, and Adhesives</b></p>	<ul style="list-style-type: none"> <li>a. Identify various types of building materials and describe their uses.</li> <li>b. List safety precautions associated with building materials.</li> <li>c. Describe the proper method of handling and storing building materials.</li> <li>d. Explain how to calculate the quantities of lumber, panel, and concrete products using industry-standard methods.</li> <li>e. Describe the fasteners, anchors, and adhesives used in construction and explain their uses.</li> </ul>
<p><b>11. Wall Systems</b></p>	<ul style="list-style-type: none"> <li>a. Identify the components of a wall system.</li> <li>b. Describe the procedure for laying out a wood frame wall, including plates, corner posts, door and window openings, partition Ts, bracing, and fire-stops.</li> <li>c. Describe the correct procedure to assemble, erect, and brace exterior walls for a frame building.</li> <li>d. Describe wall framing techniques used in masonry construction.</li> <li>e. Describe the correct procedure to estimate the materials required to frame walls.</li> <li>f. Identify alternative wall systems.</li> </ul>

<p><b>Program Technical Standards:</b> Aligned with NCCER CORE, Carpentry Levels 1 &amp; 2</p>	<p>Standards for each career path build on and continue the Anchor Standards with more complexity, rigor, and career specificity.</p>
<p><b>12. Ceiling and Roof Framing</b></p>	<ul style="list-style-type: none"> <li>a. Identify the components of ceiling framing. <ul style="list-style-type: none"> <li>a. Describe the correct procedure for laying out ceiling joists.</li> </ul> </li> <li>b. Identify common types of roofs used in residential construction.</li> <li>c. Identify the components and define the terms associated with roof framing.</li> <li>d. Describe the methods used to lay out a common rafter.</li> <li>e. Describe how to erect a gable roof.</li> <li>f. Describe how to frame a basic gable end wall.</li> <li>g. Recognize the use of trusses in basic roof framing.</li> <li>h. Describe the basics of roof sheathing installation.</li> <li>i. Describe how to perform a material takeoff for a roof.</li> </ul>
<p>NCCER Carpentry 2</p> <p><b>13. Doors and Door Hardware</b></p>	<ul style="list-style-type: none"> <li>a. Identify the different types and composition of residential and commercial doors.</li> <li>b. Identify the various types of door jambs and frames.</li> <li>c. Identify the different types of door hardware.</li> <li>d. Describe the various installation techniques for doors and hardware.</li> <li>e. List and identify specific items included on a typical door schedule.</li> <li>f. Estimate door and door hardware on a set of plans.</li> </ul>
<p><b>14. Window, Door, Floor, and Ceiling Trim</b></p>	<ul style="list-style-type: none"> <li>a. Describe the estimating procedure for exterior finish projects.</li> <li>b. Identify the different types of standard moldings and materials.</li> <li>c. Explain how to install different types of molding.</li> <li>d. Explain how to estimate window, door, floor, and ceiling trim.</li> </ul>
<p><b>15. Exterior Finishing</b></p>	<ul style="list-style-type: none"> <li>a. Describe the safety hazards when working with exterior finish materials.</li> <li>b. Describe the various types and applications of exterior finish materials.</li> <li>c. Explain how to install exterior finish materials.</li> <li>d. Describe the estimating procedure for exterior finish projects.</li> </ul>

<b>Program Technical Standards:</b> Aligned with NCCER CORE, Carpentry Levels 1 & 2	Standards for each career path build on and continue the Anchor Standards with more complexity, rigor, and career specificity.
<b>16. Communication</b>	a. Demonstrate effective verbal and written communication skills in the carpentry and construction classroom, laboratory, and work site.
<b>17. Leadership and Teamwork</b>	a. Demonstrate an ability to work independently and as a team member in carpentry, construction, and building trades.
<b>18. Ethics and Legal Responsibilities</b>	a. Recognize the professional and ethical standards that are required in the carpentry, construction, and building trades industry.
