

Early Childhood LRE Information

- A. The count of IEP students ages 3 to 5 who are in a regular early childhood program and receiving the majority of special education and related services in the regular early childhood program is divided by the total number of IEP students in the same age group.

- B. The count of IEP students ages 3 to 5 who are in separate special education class, separate school or residential facility is divided by the total number of IEP students in the same age group.

It should be noted that the sum of Sections A & B may be less than 100%, as there are other settings which are not reported in the APR.
