FACT SHEET: Preliminary 2022 Statewide Assessment Results

Smarter Balanced Assessment Preliminary Results

The Smarter Balanced assessments are administered annually in the spring to students in grades three through nine. They are designed to measure students' mastery of the Common Core State Standards in English Language Arts and Mathematics. These results are considered preliminary, as we are still waiting on finalized enrollment data from districts. Slight changes (less than .5%) may exist between preliminary and final results.

2022 English Language Arts Scores

The English Language Arts section of the assessment program includes sections on Reading, Writing, Listening and Speaking, and Research/Inquiry. The results from each section are combined to form a broad English Language Arts score.
