

# Getting My Temperature Taken: A Social Story

There are times when I need to get my  
temperature taken.

Sometimes my temperature is taken  
when I am feeling sick.

There are different ways of taking a temperature.

Sometimes a temperature is taken without touching me. The thermometer is held up to my face.

Other times it touches me and moves  
across my forehead.

Another way to measure my temperature is to put the thermometer in my mouth. It usually goes under my tongue.

When I go to school, it will be fun to see  
my friends and my teachers!

Some things might be a little different  
when I ride the bus or go back to my  
school building.

If I ride the bus, an adult may take my temperature before I get on. This is just to make sure I am not sick.

I may get my temperature checked when I go into school. This is just to make sure I am not sick.

I should try to be still when an adult takes my temperature.

Things may have changed a little at my school. And sometimes changes can be hard. Getting my temperature checked will help so we don't get sick. Now we can continue going to school and my friends and I can keep each other safe and healthy!
