

RECOGNIZE THE OUTSTANDING WORK AND CONTRIBUTION OF A SCHOOL NUTRITION HERO.

Here is your chance to publicly notice someone's great work and let them know that their work matters.

Hello School Nutrition Managers, Directors, and School Administrators,

The School Nutrition Association of Vermont (SNA-VT) and Hunger Free Vermont invite you to take a moment to think about someone who has really **made a difference in school nutrition in your district or school**. Each year these two organizations team up to recognize four people who are nominated by their colleagues or administration.

This is an opportunity to really let people know that their efforts and professional work to feed students in school matters.

The four award categories include an award for:

- Supervised staff,
- Managers and Directors,
- Advocacy efforts in School Nutrition policy and practice
- Administration and leadership

The attached nomination form is **easy to complete**.

We will review all the nominations that we receive, choose one winner for each award category, and then present the award with a plaque (to be sent directly to the winner) at the **SNA-VT Virtual Spring Conference on March 24, 2022**. This year's award winners will also be eligible to be nominated for a National School Nutrition Association Award.

Please take some time to review our award categories on the attached form and think about the School Nutrition professionals and administrators that you work with. If anyone stands out as someone who should be recognized, complete the simple nomination form and we will take it from there. Please note that current SNA-VT Board members are not eligible for this award.

The deadline is **February 7, 2022, so please act soon!**

AWARDS NOMINATION FORM [HERE](#)

Thank you for participating in this important recognition event.

The SNA-VT Board of Directors
