Afternoon Laurie-

That is an interesting question.... I do believe that we could accommodate 30 students, but 50 would result in us approaching maximum capacity.

It has been a pleasure,

Jamie

Dear Jamie,

I am the Chair of the Ripton Selectboard and also a member of our School Committee. John Carroll, Chair of the State Board of Education, has requested that Ripton reach out to confirm that there are elementary schools in the area which would have room for Ripton's K-5 students if our independent school ended up not being viable at some point during the next few years. Would you anticipate that the elementary school in Rochester would have adequate capacity for Ripton's elementary students, numbering perhaps between 30 and 50?

Thank you for all your assistance as we go through this process.  
Laurie Cox
