2360.2 Free Appropriate Public Education (FAPE) (34 Code of Federal Regulations (CFR) § 300.101)

Commented [CJ16]: Formatting edit for consistency.

These rules implement the Individuals with Disabilities Education Improvement Act (IDEA), as amended. These rules provide for the education of children and students between the ages of ~~three~~³ through ~~twenty-one~~²¹, inclusive, including children with disabilities who have been suspended or expelled from school, as provided for in Rule 4313. The Agency may use whatever State, local, Federal, and private sources of support are available in the State to meet the requirements of this part. For example, if it is necessary to place a child with a disability in a residential facility, the State could use joint agreements between the agencies involved for sharing the cost of that placement. Nothing in this part relieves an insurer or similar third party from an otherwise valid obligation to provide or to pay for services provided to a child with a disability. Consistent with Rule 2363.1 the Agency shall ensure that there is no delay in implementing a child's IEP, including any case in which the payment source for providing or paying for special education and related services to the child is being determined.

2360.5 Part C Early Intervention Services

In Vermont, Part C of IDEA is referred to as Children’s Integrated Services/Early Intervention (CIS/EI) and is responsible for the provision of early intervention services for eligible children birth up to their third birthday. Part B of IDEA requires LEAs to provide FAPE to eligible children and students from their third birthday through twenty-one years of age, whereas Part C of IDEA does not require the provision of FAPE. The Agency of Education (AOE) and the Agency of Human Services (AHS) serve as co-lead agencies in Vermont for the implementation of early intervention services under Part C of IDEA.

2360.5.1 Part C and CIS/EI Definitions

- (a) The following definitions apply to Vermont CIS/EI for use in implementing the State’s early intervention program:
- (1) **Child** means an individual under the age of six.
 - (2) **CIS/EI**, the acronym for Children’s Integrated Services/Early Intervention (CIS/EI), provides services under Part C of IDEA and is a federally mandated system of early intervention services for children birth up to age three with developmental delays or medical conditions that may lead to developmental delays.
 - (3) **Consent** means:
 - (i) Parent(s) has been fully informed of all information relevant to the activity for which consent is sought, in the parent’s native language;
 - (ii) Parent(s) understands and agrees in writing to the carrying out of the activity for which the parent’s consent is sought, and the consent form describes that activity and lists the early intervention records (if any) that will be released and to whom they will be released;

- (iii) Parent(s) understands that the granting of consent is voluntary on the part of the parent, and may be revoked at any time; and
 - (iv) If a parent revokes consent, that revocation is not retroactive (i.e., it does not apply to an action that occurred before the consent was revoked).
- (4) **Day** means calendar day, unless otherwise indicated.
- (5) **Developmental Delay** is defined as an observable and measurable delay as determined by state approved diagnostic instruments, other appropriate measures including observations, medical records or other records deemed necessary and procedures, emphasizing the use of informed clinical opinion. The delay must be defined in one or more of the following areas: cognitive; communication; adaptive; physical, including vision and hearing; and social or emotional development.
- (6) **Essential Early Education (EEE)** is IDEA Part B Early Childhood Special Education services for children ages three up to six. Special education and related services are provided by LEAs to ensure children receive age appropriate services within inclusive early childhood settings, including the child's home, to the extent possible.
- (7) **Evaluation of the Child and Assessment of the Child and Family:**
- (i) **Evaluations** are procedures used by qualified personnel to determine a child's initial and continuing eligibility under these Rules, consistent with the definition of child with a disability.
 - (ii) **Initial Evaluation** determines a child's initial eligibility for Part C services and must be completed within the ~~forty-five~~⁴⁵ day timeline from date of referral.
 - (iii) **Assessment** is an ongoing process, by qualified personnel, to identify the child's unique strengths and needs and the early intervention services appropriate to meet those needs throughout the period of the child's eligibility.
- (8) **Early Intervention Records** are records pertaining to a child receiving services that are required to be collected and maintained pursuant to IDEA Part C.

Commented [CJ54]: Technical edit for consistency

One Plan refers to Vermont's revised IFSP and meets all IDEA Part C requirements.

- (13) **Informed Clinical Opinion** makes use of qualitative and quantitative information to assist in forming a determination regarding difficult-to-measure aspects of current developmental status and the potential need for early intervention. Qualified personnel must use informed clinical opinion when conducting an evaluation and assessment of the child in order to make a recommendation as to initial and continuing eligibility for services under Part C and as a basis for planning services to meet child and family needs.

(14) **Method, Length, Frequency and Intensity, and Duration:**

- (i) Method means how a service is provided (i.e., whether the service is provided through consultation, family education, and/or direct service);

- (1) Vermont's comprehensive Part C Child Find system includes policies and procedures that are coordinated with all other major efforts to locate and identify children by other State agencies responsible for administering the various health, social service programs and education to ensure all children who may be eligible for services under Part C are identified, located and evaluated including:
 - (i) Native American children residing on a reservation geographically located in the State; and

2360.5.3 Screening (CFR §§ 303.320, 303.421, 303.420(a)(1))

- (a) As co-lead agencies, AOE and AHS have adopted procedures outlined in the Part C Interagency Agreement and are specified in regional CIS/EI and LEA agreements, to conduct screenings for children under the age of three suspected of having a disability and may be in need of early intervention services. For children with established diagnosed conditions set forth in § 2360.5.5(a)(2) screening is not necessary because records establish that the child has a disability and is eligible for Part C services. For children undergoing the screening process, and based on regional agreements, the following must occur:
- (1) Provide the parent notice of the intent to screen the child to identify whether the child is suspected of having a disability and include in that notice a description of the parent’s right to request an initial evaluation at any time during the screening process;
 - (2) Parental consent is obtained prior to conducting screening; and
 - (3) Notice must be provided to the parent if the screening or other available information indicates the child is suspected of having a disability.

- (b) The ~~forty-five~~⁴⁵ day timeline begins upon receipt of referral to the regional CIS/EI program. CIS/EI must appoint a service coordinator and contact the family within two working days of referral.
- (c) CIS/EI will review and/or conduct a screening, and if warranted, an initial evaluation of the child and assessment of the child and family. The IFSP/One Plan meeting must be held within 45 days from the date the regional CIS/EI program receives the referral for the child.
- (d) If the child is not suspected of having a disability, the CIS/EI provider must ensure that written notice of that determination is provided to the parent, and that the written notice describes the parent's right to request an evaluation.
- (e) If the parent of the child requests and consents to an evaluation at any time during the screening process, evaluation of the child must be conducted, even if the CIS/EI provider has determined that the child is not suspected of having a disability.
- (f) Screening procedures are activities that are jointly developed in regional agreements and carried out by the regional CIS/EI provider and/or LEA to identify, at the earliest possible age, a child suspected of having a disability and in need of early intervention services; and include the administration of State approved screening tools and methods by qualified personnel.

2360.5.4 Evaluation of the Child and Assessment of the Child and Family (34 CFR § 303.321)

Commented [CJ61]: Bold for consistency

Formatted: Font: Bold

- (a) CIS/EI must ensure that, subject to obtaining written parental consent, each child under the age of three referred for evaluation or early intervention services and suspected of having a disability, receives:
 - (1) An eligibility determination based on a timely, comprehensive, multidisciplinary evaluation for initial and/or on-going eligibility and that no single procedure is used as the sole criterion for determining a child's eligibility; or
 - (2) An eligibility determination based on the child's medical and other records, if those records indicate that the child's level of functioning in one or more of the developmental areas constitutes an observable and measurable developmental delay, and as a result, the child is determined eligible as a child with a diagnosed physical or mental condition that has a high probability of resulting in a developmental delay.

- (b) Once the child's eligibility has been established through an initial evaluation of the child and/or through the use of medical or other records, the initial assessment of the child must be conducted by qualified personnel so that the child receives:
 - (1) A multidisciplinary assessment of the unique strengths and needs of the child and the identification of services appropriate to meet those needs;
 - (2) A voluntary family-directed assessment of the resources, priorities, and concerns of the family and the identification of the supports and services necessary to enhance the family's capacity to meet the developmental needs of the child. The assessments of the child and family may occur simultaneously with the evaluation to determine initial and/or continuing eligibility and services appropriate to meet the child's needs.

- (c) Requirements of Evaluations and Assessments:
 - (1) Evaluation means the procedures used by qualified personnel to determine a child's initial and continuing eligibility. An initial evaluation refers to the child's evaluation to determine his or her initial eligibility;
 - (2) Assessment means the ongoing procedures used by qualified personnel to identify the child's unique strengths and needs and the early intervention services appropriate to meet those needs throughout the period of the child's eligibility and includes the assessment of the child, and the assessment of the child's family. Initial assessment

refers to the assessment of the child and the family assessment conducted prior to the child's first IFSP/One Plan meeting.

- (3) All evaluations and assessments of the child and family must be conducted by qualified personnel in a nondiscriminatory manner and selected and administered so as not to be racially or culturally discriminatory.
- (4) All evaluations and assessments of a child and family must be conducted in the native language of the child and family members being assessed, unless it is clearly not feasible to do so.
- (5) Qualified personnel must use informed clinical opinion when conducting an evaluation and assessment of the child. In addition, the regional CIS/EI programs must ensure that informed clinical opinion may be used as an independent basis to establish a child's eligibility under this part even when other instruments do not establish eligibility; however, in no event may informed clinical opinion be used to negate the results of evaluation instruments used to establish eligibility.

2360.5.4.1 Procedures for Evaluation of the Child

- (a) An evaluation of the child must be conducted by qualified personnel in a nondiscriminatory manner, selected and administered so as not to be racially or culturally discriminatory in order to determine the child's initial or continuing eligibility. In conducting a multidisciplinary evaluation, no single procedure may be used as the sole criterion for determining a child's eligibility under this part.
 - (1) The evaluation of the child must include the following:
 - (i) Administering a State approved diagnostic instrument;
 - (ii) Documenting the child's history (including interviewing the parent);
 - (iii) Identifying the child's level of functioning in each of the developmental areas;
 - (iv) Gathering information from other sources such as family members, other caregivers, medical providers, social workers, and educators, if necessary, to understand the full scope of the child's unique strengths and needs; and
 - (v) Reviewing medical, educational, or other records.

2360.5.4.2 Procedures for Initial and Ongoing Assessment of the Child

An assessment of each child with a disability must be conducted by qualified personnel in order to identify the child's unique strengths and needs and the early intervention services appropriate to meet those needs. The assessment of the child must include the following:

- (a) A review of the results of the evaluation conducted;
- (b) Personal observations of the child; and
- (c) An identification of the child's functional needs in each of the developmental areas.

2360.5.4.3 Procedures for Assessment of the Family

A family-directed assessment must be conducted by qualified personnel in order to identify the family's resources, priorities, and concerns and the supports and services necessary to enhance the family's capacity to meet the developmental needs of the family's child with a disability.

The family-directed assessment must:

- (a) Be voluntary on the part of each family member participating in the assessment;
- (b) Be based on information obtained through an assessment tool and also through a routines based interview with those family members who elect to participate in the assessment; and
- (c) Include the family's description of its resources, priorities, and concerns related to enhancing the child's development.

2360.5.5 Eligibility (34 CFR § 303.21) ~~(34 CFR § 303.21)~~

- (a) Child with a disability means a child under three years of age who needs early intervention services because:

- (1) The child is experiencing an observable and measurable developmental delay, as measured by State approved diagnostic instruments and procedures, in one or more of the following areas:
 - (i) Cognitive development;
 - (ii) Physical development, including vision and hearing;
 - (iii) Communication development;
 - (iv) Social or emotional development;
 - (v) Adaptive development;
- (2) The child has a diagnosed physical or mental condition that:
 - (i) Has a high probability of resulting in developmental delay; and
 - (ii) Includes conditions such as, but are not limited to, chromosomal abnormalities;

genetic or congenital disorders; sensory impairments; inborn errors of metabolism; disorders reflecting disturbance of the development of the nervous system; congenital infections; severe attachment disorders; disorders secondary to exposure to toxic substances, including fetal alcohol syndrome; and severe complications at birth.

- (b) For the purposes of this part, **‘developmental delay’** is defined as a clearly observable and measurable delay in one or more ~~of~~ developmental areas (as stated above) and the delayed development shall be at the level that the child’s future success in home, school or community cannot be assured without the provision of early intervention services.

(c) **Eligibility Determination**

- (1) A CIS/EI multidisciplinary team, including parents, shall determine a child’s eligibility to receive early intervention services.
- (2) The child’s file or IFSP/One Plan shall clearly document participants involved and the evaluation and procedures used to inform the eligibility determination and provision of early intervention services.

(d) **Intrastate and Interstate Transfer Eligibility**

- (1) A child determined eligible for early intervention services in one CIS/EI region who relocates to another CIS/EI region continues to be eligible for services without need for another evaluation or determination of eligibility.
- (2) For a child who relocates to Vermont from another State and who has previously been found eligible to receive early intervention services in that State, the regional CIS/EI team shall review Part C eligibility requirements from the sending State as well as any records forwarded to the regional CIS/EI program in order to determine if the child may be eligible under Vermont’s Part C eligibility requirements. If additional evaluations are warranted to determine the child’s eligibility in Vermont, written parental consent must be obtained prior to any evaluations being conducted.

(e) **Determination that a Child is Not Eligible**

If, based on the initial evaluation, the regional CIS/EI team determines that a child is not eligible under this part, the regional CIS/EI team must provide the parent with prior written notice regarding this determination, and include in the notice information about the parent’s right to dispute the eligibility determination through dispute resolution mechanisms under

- (a) Regional CIS/EI Notification to LEA of Children Potentially Eligible for EEE at Age Three:

Between six months and ninety days before the child's third birthday, the regional CIS/EI program will provide written notification (child's name, date of birth, and parent name, address, and telephone number) to the LEA where the child resides that the child on his/her third birthday will reach the age of eligibility for services under IDEA Part B and the IFSP/One Plan team has determined the child is 'potentially eligible' for Essential Early Education (EEE) services.

- (1) Potentially Eligible, for the purposes of transition at age three, is determined by the IFSP/One Plan team within six months of a child's third birthday. Evidence is based on on-going assessment measures and use of a State approved diagnostic instrument. A child shall be considered potentially eligible for EEE services if the child demonstrates at least a 25% delay in one or more of the following developmental domains:
- (i) Speech and language development (receptive and/or expressive communication; including articulation, fluency and/or voice);
 - (ii) Adaptive development;
 - (iii) Social or emotional development;
 - (iv) Physical development including gross or fine motor skills; and/or
 - (v) Cognitive skills such as perception, memory, processing and reasoning.

- (b) Regional CIS/EI Notification to Part C State Office: Between six months and ninety days before the child's third birthday, the regional CIS/EI program will provide written notification (child's name, date of birth, and parent name, address, and telephone number) to the Part C State office only for children who are receiving Part C services and who may be potentially eligible for services under Part B.
- (c) Part C State Notification: Between six months and not fewer than ninety days before the child's third birthday, the Part C State office will provide written notification (child's name, date of birth, and parent name, address, and telephone number) to the AOE for children who are receiving Part C services and who are considered potentially eligible for services under Part B. The Part C State office will report this information monthly to the AOE.

2360.5.8 Late Referral Procedures

- (a) If the regional CIS/EI program determines that a child is eligible for early intervention services *more than ~~forty-five~~45 days but fewer than ~~ninety~~90 days* before that child's third birthday the regional CIS/EI must provide transition notification to the LEA where the child resides as soon as possible.
- (b) If the regional CIS/EI program determines that a child is eligible for early intervention services *more than ~~forty-five~~45 days but fewer than ~~ninety~~90 days* before that child's third birthday the regional CIS/EI must provide transition notification as soon as possible to the Part C State office after determining eligibility.
- (c) The Part C State office will provide written notification as soon as possible to the AOE for all children determined eligible for early intervention services *more than ~~forty-five~~45 days but fewer than ~~ninety~~90 days* before their third birthday.
- (d) If a child is referred to the regional CIS/EI program *fewer than ~~forty-five~~45 days* before their third birthday, the regional CIS/EI program is not required to conduct an initial evaluation, assessment or initial IFSP meeting. If that child may be potentially eligible for Part B services, the regional CIS/EI, with parental consent, must refer the child to the LEA where the child resides.

Commented [CJ70]: Technical edits for consistency

- (e) If a child is referred to the regional CIS/EI program *fewer than ~~forty-five~~45 days* before his/her ~~third~~ birthday and may be potentially eligible for Part B services, the regional CIS/EI program must notify, with parental consent, the Part C State office, LEA, and AOE as soon as possible.
- (f) With parental consent, the Part C State office will provide written notification as soon as possible to the AOE for all children referred *fewer than ~~forty-five~~45 days* before their third birthday and who may be potentially eligible for Part B services.

2360.5.9 Transition Conference (CFR § 303.209 ~~(c)~~-(d))

(a) The AOE and AHS shall ensure that regional CIS/EI and LEA representatives participate in transition planning conferences for those children who are considered potentially eligible for Part B EEE services at age three.

- (1) With family approval, the regional CIS/EI shall conduct a transition conference for a child with disabilities who is receiving Part C services and who will be exiting the Part C program not fewer than ninety days, and at the discretion of all parties not more than nine months, before the child's third birthday to discuss any services the child may receive under Part B EEE services.
- (2) Prior to or at the transition conference, families will be provided information about parental rights and procedural safeguards for Part B.
- (3) If a child is not potentially eligible for Part B EEE services, with the family's approval, the regional CIS/EI program shall make reasonable efforts to convene a conference with the family and community-based providers to discuss other appropriate services that the child may receive.
- (4) The transition conference must include the regional CIS/EI IFSP/One Plan providers, the family of the child and an LEA representative.

Commented [CJ101]: Added CFR reference

Formatted: Font: Bold

(a) At all times, a child's LRE placement must be based on their unique abilities and needs, and must provide the opportunity for a meaningful educational benefit. In determining the

educational placement of a preschool child with a disability, each LEA shall provide a full continuum of placement options and ensure that:

(1) Placement decisions (provision of early childhood special education and related services) shall be made by the IEP team in conformity with the provisions regarding placement in the least restrictive environment set forth in Rule 2364, and

(2) The child's educational placement shall be:

(i) Determined at least annually;

(ii) Based on the child's IEP;

(iii) In as close proximity as possible to the child's home; ~~or and~~

(iv) Based on consideration of community-based early care and education settings, such as public ~~or private~~ Universal Prekindergarten Education (UPK) pre-K classrooms, private childcare, Head Start or as appropriate for the child, within the home.

(A) A child may receive ECSE services in a state approved public or private prequalified UPK program. The LEA may, but is not required to, provide ECSE services outside of the LEA, even if the child is enrolled in an out-of-district UPK program.

(B) All public and private UPK programs shall adhere to applicable federal and state laws including, but not limited to, IDEA Part B; Section 504 of the Rehabilitation Act of 1973; the Americans with Disabilities Act (ADA); Title VII of the Civil Rights Act of 1964; Vermont's Act 166; SBE Rule Series 2600; and the Vermont Agency of Human Services (AHS), Child Development Division (CDD) licensing regulations.

(C) For children who are enrolled in public or private UPK programs and receive ECSE services, the UPK program shall allow access to ECSE service providers and permit announced and unannounced visits by representatives of AOE, AHS, and school district staff.

2361.4 Transition for Children Moving into Kindergarten

- (a) In order to ensure a smooth transition to kindergarten, the IEP team shall:
- (1) Meet three to six months prior to the child's entrance into kindergarten to ensure that the child's IEP is ready to be implemented at the beginning of the school year. The child's re-evaluation date is determined three years from the child's evaluation date as stated on the child's current IEP.
 - (2) Include in the meeting the parents of the child with a disability, a kindergarten teacher in whose school the child will be attending, and a special education teacher or other school representative from the LEA who is:

2362 Eligibility for Children Ages Six Years through ~~Twenty~~-One
(34 CFR § 300.306)

Commented [CJ102]: Technical revision

- (a) A child shall be eligible for special education if:
- (1) He or she has one or more of the disabilities described in Rule 2362.1;
 - (2) The disability results in an adverse effect on the child's educational performance in one or more of the basic skill areas as described in subsection (f), below; and
 - (3) The student needs special education services to access and benefit from his or her educational program and this support cannot be provided through the educational support system, standard instructional conditions or supplementary aids and services provided in the school.
- (b) The three criteria listed in section (a) above shall also be applied at the time the student receives a re-evaluation to determine eligibility.
- (c) A formal evaluation process, documented in a report as required by Rule 2362.2.~~65~~, shall be used to determine whether the above criteria are met.
- (d) Adverse Effect.
- (1) To conclude that a disability has an adverse effect on the student's educational performance, the EPT shall determine and document that, as a result of his or her disability, the student is functioning significantly below grade norms compared to grade peers in one or more of the basic skills defined in Rule 2362(g).
 - (2) "Significantly below grade norms" means the 15th percentile or below, or a 1.0 standard deviation or more below the mean, or the equivalent, as reflected by performance on at least three of the six following measures of school performance, generally over a period of time:
 - (i) Individually administered nationally normed achievement test;
 - (ii) Normed group administered achievement tests, including nationally normed curriculum-based measures;
 - (iii) Grades;
 - (iv) Curriculum-based measures which could include benchmark assessments and continuous progress monitoring outcomes;

Commented [CJ104]: Technical revision to reference correct rule.

- (v) Criterion-referenced or group-administered criterion-referenced assessments;
 - (vi) Student work, language samples or portfolios.
- (3) With respect to each basic skill considered, the EPT shall specifically identify in its report:
- (i) Each type of measure considered by the Team;
 - (ii) The finding of the Team, with respect to each measure considered, as to whether and why the measure met (or did not meet) the 15th percentile, -1.0 standard deviation, or equivalent standard, in order to support a finding of adverse effect;
 - (i) The specific testing data/scores, student work, and/or education records relied upon by the Team to support its finding under subparagraph (ii) that a measure did or did not meet the standard; and
 - (iv) A statement of each basic skill area in which the disability was determined to have an adverse effect, based upon (i)-(iii).
- (e) A child may not be determined to be eligible under these rules if the determinant factor for that eligibility decision is lack of instruction in reading, including the essential components of reading instruction (phonemic awareness, phonics, fluency including oral reading skills, vocabulary development, reading comprehension strategies), or math, or limited English proficiency; and the child does not otherwise meet the eligibility criteria of these rules.
- (f) If a child has a disability that results in an adverse effect on his or her educational performance in one or more of the basic skills, the EPT shall, in the following order:
- (1) Consider the interventions, services, and accommodations the student may need, and
 - (2) Determine and provide justification that the student requires specially designed instruction that cannot be provided within the school's standard instructional conditions, or provided through the school's educational support system.
- (g) Basic skill areas—
- (1) Unless otherwise specified in the disability category in these rules, basic skill areas are:
 - (i) Oral expression;

- (2) For an individual with a sensory impairment, one or more comparable basic skills shall be considered to serve as an appropriate substitute for one or more of the above basic skills, for example, Braille skills for basic reading skills.

~~(3) (3)~~—The screening of a student by a teacher or specialist to determine appropriate instructional strategies for curriculum implementation shall not be considered to be an evaluation for eligibility for special education and related services.

2362.1 Categories of Disability (34 CFR § 300.8)

The existence of one or more of the following categories of disability shall be established according to the criteria set forth below.

(a) Autism Spectrum Disorder

- (1) Is a developmental disability significantly affecting verbal and nonverbal communication and social interaction, generally evident before age three. Included in the spectrum are: autism, pervasive developmental disorder – not otherwise specified, Rett’s Disorder, Asperger’s Disorder, and childhood disintegrative disorder.
- (2) Other characteristics often associated with autism spectrum disorder are engagement in repetitive activities and stereotyped movements, resistance to environmental change or change in daily routines, and unusual responses to sensory experiences. Characteristics vary from mild to severe as well as in the number of symptoms present. Autism spectrum disorder does not apply if a child’s educational performance is adversely affected primarily because the child has an emotional disturbance, as defined in Rule 2362.1(c).

Formatted: Font: Bold, Underline

- (3) A child who manifests the characteristics of autism spectrum disorder after age three could be identified as having autism spectrum disorder if the criteria in subsection (1) ~~and~~ (2) are satisfied.
- (4) The EPT shall obtain an opinion of a licensed psychologist and/or medical physician who have training and experience in understanding autism spectrum disorders and other developmental disorders as to the existence of an autism spectrum disorder and its effect on the student's ability to function and whether there is an adverse effect on the child's educational performance.
- (b) **Deaf-blindness** means concomitant hearing and visual impairments, the combination of which causes such severe communication and other developmental and educational needs that they cannot be accommodated in special education programs solely for children with deafness or children with blindness.
- (c) **Emotional disturbance** means a condition including schizophrenia, exhibiting one or more of the following characteristics over a long period of time and to a marked degree that adversely affects a child's educational performance.
- (1) Characteristics of an emotional disturbance:
- (i) An inability to learn that cannot be explained by intellectual, sensory, or health factors.
 - (ii) An inability to build or maintain satisfactory interpersonal relationships with peers and teachers.
 - (iii) Inappropriate types of behavior or feelings under normal circumstances.
 - (iv) A general pervasive mood of unhappiness or depression.
 - (v) A tendency to develop physical symptoms or fears associated with personal or school problems.
- (2) A student who is socially maladjusted shall not be considered to be emotionally disturbed unless, he or she also meets the definition of emotional disturbance as set forth in subdivision (1). A social maladjustment is a persistent pattern of violating societal norms, such as multiple acts of truancy, or substance or sex abuse, and is marked by struggle with authority, low frustration threshold, impulsivity, or

Commented [CJ106]: Technical correction.

manipulative behaviors. A social maladjustment unaccompanied by an emotional disturbance is often indicated by some or all of the following:

- (i) Unhappiness or depression that is not pervasive;
- (ii) Problem behaviors that are goal-directed, self-serving and manipulative;
- (iv) Actions that are based on perceived self-interest even though others may consider the behavior to be self-defeating;
- (iv) General social conventions and behavioral standards are understood, but are not accepted;
- (v) Negative counter-cultural standards or peers are accepted and followed;
- (vi) Problem behaviors have escalated during pre-adolescence or adolescence;
- (vii) Inappropriate behaviors are displayed in selected settings or situations (e.g., only at home, in school or in selected classes), while other behavior is appropriately controlled; and/or
- (viii) Problem behaviors are frequently the result of encouragement by a peer group, are intentional, and the student understands the consequences of such behaviors.

(3) The EPT shall obtain an opinion of a licensed psychologist or psychiatrist as to the existence of an emotional disturbance and its effect on the student's ability to function, based on the above criteria.

(4) Upon determination of the existence of an emotional disturbance disability, the parent shall be informed of the availability of interagency coordination of services, as defined by 33 V.S.A. §_4301 et seq.

(d) **Hearing Loss** means deafness or hard of hearing as determined by an audiologist, otologist, or otolaryngologist, and demonstrated by a 25 decibel HL threshold (ANSI, 69) or worse for one or more of the frequencies 250-8000HZ, in one or both ears, with or without amplification.

(e) **Intellectual disability** means a delay in learning of sufficient magnitude to cause a student's performance to fall at or below -1.5 standard deviations from the mean of a test of intellectual ability, existing concurrently with deficits in adaptive behavior.

- (f) **Multiple disabilities** means concomitant impairments (such as intellectual disability-blindness or intellectual disability-orthopedic impairment) the combination of which causes such severe educational needs that they cannot be accommodated in special education programs solely for one of the impairments. Multiple disabilities does not include deaf-blindness.
- (g) **Orthopedic impairment** includes impairments caused by a congenital anomaly, impairments caused by disease (e.g., poliomyelitis, bone tuberculosis), and impairments from other causes (e.g., cerebral palsy, amputations, and fractures or burns that cause contractures). The EPT shall obtain an opinion from a licensed physician as to the existence of the orthopedic impairment and its effect on the student's ability to function.
- (h) **Other health impairment** means having limited strength, vitality, or alertness, including a heightened alertness to environmental stimuli, that results in limited alertness with respect to the educational environment, that:
- (1) Is due to chronic or acute health problems such as asthma, attention deficit disorder or attention deficit hyperactivity disorder, diabetes, epilepsy, a heart condition, hemophilia, lead poisoning, leukemia, nephritis, rheumatic fever, sickle cell anemia, non-verbal learning disability and Tourette syndrome; and adversely affects a child's educational performance.
 - (2) In order to determine the existence of an-other health impairment and its effect on the student's ability to function, the EPT shall obtain an opinion from a person:
 - (i) Whose professional licensure authorizes him or her to offer an opinion on the existence of the specific condition suspected to be another health impairment and its effect on the student's ability to function, and
 - (ii) Who has specific training and experience in diagnosing and recommending treatment for the specific condition suspected.
- (i) **Specific Learning Disability**
- (1) The term "specific learning disability" means a disorder in one or more of the basic psychological processes involved in understanding or in using language, spoken or written, which disorder may manifest itself in the imperfect ability to listen, think, speak, read, write, spell, or do mathematical calculations.

- (2) Disorders include conditions such as perceptual disabilities, brain injury, minimal brain dysfunction, dyslexia, and developmental aphasia.
 - (3) The term “specific learning disability” does not include a learning problem that is primarily the result of: visual, hearing, or motor disabilities; intellectual disability; emotional disturbance; or environmental, cultural, or economic disadvantage.
- (j) **Speech or language impairment** means a communication disorder, such as stuttering, impaired articulation, a language impairment, or a voice impairment that adversely affects a child’s educational performance and shall be demonstrated by significant deficits in listening comprehension or oral expression. The EPT shall obtain an opinion from a licensed speech-language pathologist as to the existence of a speech or language impairment and its effect on the student’s ability to function. The determination of a speech or language impairment shall be based on the following criteria:
- (1) Listening comprehension. A significant deficit in listening comprehension exists when a student demonstrates at least 2.0 standard deviations below the test mean on at least one composite score and other measures of auditory processing or comprehension of connected speech. Auditory processing or comprehension include:
 - (i) phonology,
 - (ii) morphology,
 - (iii) syntax,

- (ii) Fluency. A significant deficit in fluency exists when the student exhibits one or more of the following behaviors:
 - (A) Part word repetitions or sound prolongations occur on at least 5% of the words spoken in two or more speech samples, or
 - (B) Sound or silent prolongations exceed one second in two or more speech samples, or
 - (C) Secondary symptoms or signs of tension or struggle during speech which are so severe as to interfere with the flow of communication.
- (iii) Articulation. A significant deficit in articulation attributed to an organic or functional disorder exists when a student is unable to articulate two or more of the unrelated phonemes in connected speech, set forth below, and it is not attributed to dialect or second language difficulties.

Age	Phonemes
6.0 – 6.11	m, n, h, w, p, b, t, d, k, g, f, v (y), (ch), (th) as in the word “mother”, (sh) and “j” as in jump

 - (C) syntax,
 - (D) semantics, or
 - (E) pragmatics

- (k) **Traumatic brain injury** means an injury to the brain caused by an external physical force or by an internal occurrence such as a stroke or aneurysm, resulting in total or partial functional disability or psychosocial impairment, or both. The EPT shall obtain an opinion of a licensed physician as to the existence of a traumatic brain injury and its effect on the student's ability to function, as defined by the following criteria:
- (1) The condition includes open or closed head injuries resulting in impairments in one or more areas, including cognition; language; memory; attention; reasoning; abstract thinking; judgment; problem-solving; sensory, perceptual and motor abilities; psychosocial behavior; physical functions; information processing; and speech.

- (3) reduced visual field to 20 degrees;
- (4) a diagnosis of cortical visual impairment;
- (5) a diagnosis of a degenerative condition that is likely to result in a significant loss of vision; or
- (6) other vision conditions that may adversely affect a child's educational performance, such as convergence insufficiency disorder.

~~and a visual acuity of 20/70 or less in the better eye, or a diagnosis of cortical visual impairment, or a diagnosis of a degenerative condition that is likely to result in a significant loss of vision, or other vision conditions that may adversely affect a child's educational performance, such as convergence insufficiency disorder. The term includes both partial sight and blindness.~~

2362.2 Procedures for Evaluation and Determination of Eligibility-Definition and Purpose

- (a) For purposes of this section, "evaluations" are defined as observations, tests and other diagnostic measures, individually selected and administered to determine the existence of a disability, the effect the disability has on the child's educational and functional performance,

the need for specialized services, and for an appropriate program. An evaluation is a compilation of information that is designed to assist:

- (1) The EPT in determining eligibility for special education;
- (2) The IEP team in developing the student’s individualized educational program including special education services, and as required, related services, transition services, assistive technology, supplementary aids and services; and
- (3) The IEP team in determining an appropriate placement in the least restrictive environment.
- (1) The EPT membership for a student/child suspected of having a specific learning disability shall also include the following people:
 - (ii) The student/child’s general education teacher, or
 - (iii) If the student/child does not have a general education teacher, a general education teacher qualified to teach a student/child of his or her age; or
 - (iv) For a student/child of less than school age, an individual qualified to teach a student/child of his or her age; and
 - (v) At least one person qualified to conduct individual diagnostic examinations of students/children, such as a school psychologist, speech and language pathologist, special education teacher, or remedial reading teacher.
- (4) Where the EPT cannot achieve consensus, as a member of the EPT, the LEA representative shall make the final decision.
- (c) The screening of a student by a teacher or specialist to determine appropriate instructional strategies for curriculum implementation shall not be considered to be an evaluation for eligibility for special education and related services. (34 CFR §_300.302)

2362.2.1 Initial Evaluations (34 CFR §_300.301)

Either a parent of a child, or an LEA, or the AOE, or other State agency, may initiate a request for an initial evaluation to determine if a child or student is eligible for special education and related services. An LEA shall not use implementation of Response to Intervention (RTI), Multi-tiered System of Supports (MTSS) or other strategies for academic and behavioral support to delay or deny the evaluation of a child or student suspected of having a disability.

 - (vi) Those tailored to assess specific areas of educational need and not merely those that are designed to provide a single general intelligence quotient.
 - (vii) Selected and administered so as best to ensure that if an assessment is administered to a child with impaired sensory, manual, or speaking skills, the assessment results accurately reflect the child's aptitude or achievement level or whatever other factors the test purports to measure, rather than reflecting the child's impaired sensory, manual, or speaking skills (unless those skills are the factors that the test purports to measure).
- (5) Ensure that assessments of children with disabilities who transfer from one LEA to another LEA in the same academic year are coordinated with such children's prior and subsequent schools, as necessary and as expeditiously as possible, to ensure prompt completion of full evaluations.
- (6) Ensure that the evaluation is sufficiently comprehensive to identify all of the child's special education and related service needs, whether or not commonly linked to the disability category in which the child has been found eligible.
- (7) Ensure that assessment tools and strategies provide relevant information to directly assist the IEP team in determining that the educational needs of the child are provided.
- (c) As part of an initial evaluation (if appropriate) and as part of any reevaluation under this part, the EPT and other qualified professionals, as appropriate, shall:
- (1) Review existing evaluation data on the child, including:
 - (i) Evaluations and information provided by the parents of the child;
 - (ii) Current classroom-based, local, or State assessments, and classroom-based observations; and
 - (iii) Observations by teachers and related services providers; and

- (2) On the basis of that review, and input from the student's parents, identify what additional data, if any, are needed to determine:
- (i) Whether the student is or continues to be eligible for special education and related services,
 - (ii) The present levels of academic achievement and related developmental needs of the student;
 - (iii) Whether any additions or modifications to the special education and related services are needed to enable the student to meet the measurable annual goals set out in the IEP of the student and to participate, as appropriate, in the general education curriculum.
- (d) The EPT may conduct its review without a meeting.
- (i) If a parent requests that the EPT review data through a formal meeting, then a formal meeting with required notices shall be held.
 - (ii) A formal meeting shall be required whenever the initial eligibility of the child will be determined. When a satisfactory agreement on such time or place cannot be reached, the LEA shall use other, mutually agreed upon methods, to ensure parent participation, including individual or conference telephone calls, or video conferencing.
- (e) The LEA shall administer such assessments and other evaluation measures as may be needed to produce the data identified under paragraph (c) of this section.
- (f) If the EPT determines that no additional data are needed to determine whether the child continues to be eligible for special education and related services, the LEA shall notify the child's parents of:
- (1) That determination and the reasons for the determination; and
 - (2) The right of the parents to request additional testing to determine eligibility.
 - (i) The LEA is not required to conduct additional testing unless requested to do so by the child's parents.
- (g) The LEA shall evaluate a child before determining that the child is no longer eligible for special education and related services, unless the termination of a child's eligibility is due to graduation from secondary school with a regular diploma, or due to reaching the age of 22.

- (i) Under these circumstances, the LEA shall provide the child with a summary of the child's academic achievement and functional performance, which shall include recommendations on how to assist the child in meeting the child's postsecondary goals.
 - (ii) The LEA shall send a notice to the student and his/her parent(s) that a change of placement is scheduled to occur and give the reasons why.
- (h) Prior to conducting an initial or re-evaluation for eligibility purposes, the EPT shall complete a written evaluation plan which lists the areas to be assessed, the procedures to be used in carrying out the evaluation, and personnel by title responsible for performing the evaluations. All EPT members shall have the opportunity to provide input in the development of the written evaluation plan.

**2362.2.5 Additional Procedures for Identifying Children With Specific Learning Disabilities
(34 CFR §§ 300.307-300.311)**

- (a) In making the determination that a student has a specific learning disability the LEA shall decide whether to use a discrepancy model or a model based on whether the student responds to scientific, research-based intervention.
 - (1) When using a discrepancy model, the EPT shall document that the student exhibits a discrepancy of 1.5 standard deviations or greater between ability and expected levels of performance in one or more of the basic skill areas.
 - (2) When using a model based on whether the student responds to scientific, research-based intervention the EPT shall document use of the following:
 - (i) High-quality instruction and scientific research-based tiered interventions aligned with individual student need;
 - (ii) Frequent monitoring of student progress to make results-based academic decisions; and
 - (iii) Use of student response data to evaluate the effectiveness of interventions.
- (b) The determination of whether a student has a specific learning disability shall be made by the student's parents and a team of qualified professionals, which shall include:
 - (1) The child's general education teacher; or
 - (i) If the child does not have a general education teacher, a classroom teacher qualified to teach a child of his or her age; or

- (2) For a child of less than school age, an individual licensed by the Vermont Agency of Education to teach a student of his or her age; and
 - (3) At least one person qualified to conduct individual diagnostic examinations of children, such as a school psychologist, speech-language pathologist, special education teacher or remedial reading teacher.
- (c) The EPT may determine that a student has a specific learning disability if:
- (1) When provided with learning experiences and instruction appropriate for the student's age or State-approved grade-level standards, the student does not achieve adequately in one or more of the following areas:
 - (i) Oral expression.
 - (ii) Listening comprehension.
 - (iii) Written expression.
 - (iv) Basic reading skill.
 - (v) Reading fluency skills.
 - (vi) Reading comprehension.
 - (vii) Mathematics calculation
 - (viii) Mathematics problem solving
 - (2) The student does not make sufficient progress to meet age or State approved grade level standards in one or more of the areas identified in (c)(1)- when using either a discrepancy model or a model based on whether the student responds to scientific, research-based intervention.
 - (3) The EPT determines that its findings under paragraphs (c)(1) and (2) of this section are not primarily the result of:
 - (i) A visual, hearing, or motor disability;
 - (ii) Intellectual Disability;
 - (iii) Emotional disturbance;
 - (iv) Cultural factors;
 - (v) Environmental or economic disadvantage; or
 - (vi) Limited English proficiency.
- (d) To ensure that underachievement in a student suspected of having a specific learning disability is not due to lack of appropriate instruction in reading or math, the EPT shall consider, as part of the evaluation, the following:

- (1) Data that demonstrate that prior to, or as a part of, the referral process, the student was provided appropriate instruction in general education settings, delivered by qualified personnel; and
 - (2) Data-based documentation of repeated assessments of achievement at reasonable intervals, reflecting formal assessment of student progress during instruction, which was provided to the student's parents.
- (e) The LEA shall promptly request parental consent to evaluate the student to determine if the student needs special education and related services, and shall adhere to the timeframes described in Rule 2362.2.1 unless extended by mutual written agreement of the student's parents and other members of the EPT if:
- (1) Prior to a referral, a student has not made adequate progress after an appropriate period of time when provided scientifically research-based instruction/intervention; and
 - (2) Whenever a student is referred for an evaluation.
- (f) At least one member of the child's EPT, other than the child's current teacher, who is trained in observation, shall observe the child, and the learning environment, including the general classroom setting, to document academic performance and behavior in the areas of difficulty.
- (1) Students who are enrolled in a program of home study or who receive instruction delivered in a home, hospital, preschool, childcare setting or other out of school setting shall be observed in instructional environments appropriate for children of that age, by trained personnel who are not the teacher. This observation shall be reported in writing to the EPT.
 - (2) If, after reasonable efforts have been made, it is not possible to conduct a classroom observation due to chronic truancy or other extenuating circumstances, there shall be documentation of efforts made to observe the student in an instructional environment.

2362.2.6 Evaluation and Planning Team Report

- (a) When all necessary information is collected, the EPT shall prepare a written report that documents whether the child is eligible. When a student is found eligible, the report shall be available for use by the IEP team in program planning. The report shall include the following and shall be provided to the parent by the EPT:

- (1) A conclusion supported by a rationale as to whether or not the student is eligible for special education based on the following:
 - (i) The presence or absence of a disability;
 - (ii) If there is a disability, whether it has an adverse effect on educational performance in one or more of the basic skill areas; and
 - (iii) Whether the student needs special education services to benefit from his or her educational program and that this support cannot be provided through the educational support system, standard instructional conditions or supplementary aids and services provided in the school.
 - (2) The evaluation procedures used, including:
 - (i) A description of any modifications or changes made from the evaluation procedures specified in the evaluation plan; or
 - (ii) Changes which were necessary in test administration as described in Rule 2362.2.3(h);
 - (3) A summary of all educationally relevant information collected during the evaluation, including educational, medical and psychological information and a summary of other factors considered;
 - (4) Recommendations as to the need for accommodations in curriculum, assessments, material, or programmatic adaptation, behavior management interventions, supplemental aids and services;
 - (5) The initials of all team members indicating agreement or disagreement with the eligibility conclusion. A group member who does not agree with the conclusion shall submit a separate statement presenting his or her conclusions and this statement shall become part of the Evaluation Plan and Report; and
 - (6) The written report of an observation of the student, if an observation has been conducted.
- (b) For a student suspected of having a specific learning disability, the evaluation report shall include documentation of:
- (1) Whether the student has a specific learning disability;
 - (2) The basis for making the determination, including an assurance that the determination has been made in accordance with Rules 2362.2.3 and 2362.2.4.

- (3) The relevant behavior, if any, noted during the observation of the student and the relationship of that behavior to the student's academic functioning;
- (4) Any educationally relevant medical findings;
- (5) Whether:
 - (i) The student does not achieve adequately for the student's age or to meet Vermont grade-level standards in one or more of the basic skill areas, when provided with learning experiences and instruction appropriate for the student's age or grade level expectations; and
 - (ii) The student exhibits a pattern of strengths and weaknesses in performance, achievement, or both, relative to age, Vermont standards and grade level expectations or intellectual development consistent with the characteristics of a specific learning disability.
- (6) The determination of the EPT concerning the effects of -visual, hearing, or motor disability; intellectual disability; emotional disturbance; cultural factors; environmental or economic disadvantage; or limited English proficiency on the student's achievement level; and
- (7) If the student has participated in a process that assesses the student's response to scientific, research-based intervention:
 - (i) The instructional strategies used and the student-centered data collected; and
 - (ii) The documentation that the student's parents were notified about:
 - (A) The amount and nature of student performance data that would be collected and the general education services that would be provided;
 - (B) Strategies for increasing the student's rate of learning; and
 - (C) The parent's right to request an evaluation.

2362.2.7 Students Who Are Determined to Have a Disability, But Are Not Eligible for Special Education

- (a) When an EPT determines that a student has a disability, but is not eligible for special education, it shall recommend accommodations, as needed, in such areas as assessment procedures, curriculum, material or programmatic adaptations, behavior management interventions, and supplemental aids and services. These recommendations shall be included in the written Evaluation Plan and Report. The Evaluation Plan and Report for such a student

shall be referred to the student's building administrator who shall arrange for a Section 504 Team to consider whether:

- (1) The student's disability and needs will require a Section 504 Plan or
 - (2) The student's needs can be met within the school's standard instructional conditions and through its educational support system.
- (b) If the EPT determines that the student has a disability, but is not eligible for special education, it may proceed to operate as a Section 504 team to determine whether the child is eligible for reasonable accommodations under Section 504.

2362.2.8 Independent Educational Evaluation (34 CFR § 300.502)

An "independent educational evaluation" means an evaluation conducted by a qualified examiner who is not employed by the LEA responsible for the education of the child in question.

- (a) Upon completion of a LEA evaluation, a parent may request an independent educational evaluation at public expense if he or she disagrees with the evaluation obtained by the LEA. Except as provided in this rule, the LEA shall either pay the full cost of the requested evaluation, or ensure that the evaluation is otherwise provided at no cost to the parent.
- (b) A parent is entitled to only one independent educational evaluation at public expense for each evaluation performed by the LEA with which the parent disagrees.
- (c) If a parent requests an independent educational evaluation, the LEA shall, without unnecessary delay, either:
 - (1) Initiate a hearing to show that its evaluation is appropriate; or
 - (2) Ensure that an independent educational evaluation is provided at no cost to the parent.
- (d) An LEA shall provide to a parent who requests an independent educational evaluation, information about where such an evaluation may be obtained.
- (e) Any LEA criteria, under which an independent evaluation may be obtained, including the location of the evaluation and the qualification of the examiner, shall be the same as the criteria that the LEA uses when it initiates an evaluation. Criteria established by an LEA under this section shall not interfere with the parent's right to an independent educational evaluation.

- (f) Except as provided in (d) above, timelines or conditions related to obtaining an independent educational evaluation may not be imposed by the LEA.
- (g) An LEA may pursue mediation or a due process hearing to demonstrate that an independent educational evaluation obtained by a parent does not meet LEA criteria.
- (h) If the LEA initiates a hearing and the final decision is that the district's evaluation is appropriate, the parent still has the right to an independent educational evaluation, but not at the LEA's expense.
- (i) If a parent requests an independent educational evaluation, the LEA may ask for the parent's reason why he or she objects to the district's evaluation. However, an explanation by the parent may not be required, and the LEA may not unreasonably delay either providing the independent educational evaluation at no cost to the parent or initiating a due process hearing to defend the district's evaluation.
- (j) If the parent obtains an independent educational evaluation at private expense, the results of the evaluation:
 - (1) Shall be considered by the LEA's EPT, if the evaluation meets the district's criteria, whenever it makes any decision with respect to the provision of FAPE to the child; and
 - (2) May be presented as evidence at a hearing regarding the child.
- (k) If a hearing officer requests an independent educational evaluation as part of a hearing, the LEA is responsible for ensuring that the independent evaluation is completed at no cost to the parent.

(c) IEP Team attendance

- (1) A member of the IEP Team is not required to attend an IEP meeting, in whole or in part, if the parent of the child and the local educational agency agree, in writing, that the attendance of such member is not necessary because the member's area of curriculum or related services is not being modified or discussed in the meeting.
- (2) A member of the IEP Team may be excused from attending an IEP meeting, in whole or in part, when the parent and local education agency agree, in writing, that a team member may be excused from the IEP meeting in which the member's area of curriculum or related services is being discussed.  - (i) Why that assessment is not appropriate for the child; and
 - (ii) How the child will be assessed.
- (h) A description of any extended school year services (ESY) which the IEP team finds are necessary to provide a FAPE to the student.

Commented [CJ130]: Technical edit for consistent rule reference

- (1) ESY services shall be provided only if a child's IEP team determines that the services are necessary for the provision of FAPE to the child because one or more of the following factors is evident:
 - (i) ESY is essential to permit the student an opportunity to reach reasonably set educational goals;
 - (ii) There has been a significant amount of regression over the past winter, spring and summer vacations and recoupment did not occur within a reasonable amount of time;
 - (iii) The severity of the student's disability presents a danger of substantial regression;
or
 - (iv) The student's transition goals require continued programming beyond the school year IEP.
 - (2) An LEA or IEP team may not limit extended school year services to students with particular disabilities.
 - (3) An LEA shall not adopt a policy that limits the type, amount, or duration of ESY services for all children.
- (i) Transition services
- (1) For students, beginning with the first IEP in effect -when the ~~student-child~~ is ~~sixteen~~¹⁶, or younger if determined appropriate by the IEP team, and updated annually thereafter, there shall be:
 - (i) Age appropriate and measurable postsecondary goals based upon age appropriate assessments related to:
 - (A) Education/training;
 - (B) Employment; and
 - (C) If appropriate, independent living.
 - (ii) Evidence that the student's interests and preferences were taken into consideration during the formulation of the goals.

- (2) Contingent upon prior consent from the parent or adult student, representatives of any agency that is likely to be responsible for providing or paying for transition services to implement the goals, shall be invited to participate in the IEP meeting.
- (3) If a participating agency, other than the LEA, fails to provide the transition services described in the IEP, the LEA shall reconvene the IEP team to identify alternative strategies to meet the transition objectives for the student set out in the IEP.
- (4) Nothing in these regulations shall relieve any participating agency of the responsibility to provide or pay for any transition service that the agency would otherwise provide to students with disabilities who meet the eligibility criteria of that agency.
- (5) When a student is going to graduate, a “summary of performance” report shall be written for the student as described at Rule 2362.2.43(g)(i).

Commented [CJ133]: Technical revision – reference to incorrect rule.

2363.8 Consent for Initial Provision of Special Education Services (34 CFR § 300.300(b))

- (a) A consent form shall be signed by the parent and received by the LEA prior to the initial provision of IEP services.
- (b) If the parent of a child fails to respond or refuses to consent to services the LEA may not use due process procedures, or mediation, in order to obtain agreement or a ruling that the services may be provided to the child.
- (c) If the parent of the child refuses to consent to the initial provision of special education or related services, or the parent fails to respond to a request to provide consent for the initial provision of special education and related services, the LEA:
 - (1) Will not be considered to be in violation of the requirement to make available a free appropriate public education to the child for the failure to provide the child with the special education and related services for which the LEA requests consent.
 - (2) Is not required to convene an IEP meeting or develop an IEP for the child for the special education and related services for which the LEA requests such consent.
- (d) If the parent provides written consent for the initial provision of IEP services before they have begun and then revokes the consent, the services shall not commence. The student shall remain eligible for services and the LEA may attempt to resolve the matter with the parent by:

- (1) Discussing the matter through appropriate informal means,

- (e) A parent may revoke consent at any time subsequent to the initial provision of special education and related services. The revocation of consent shall be in writing, on a form provided by the LEA or in any other written form, and should indicate the date of revocation. Upon receipt of such a revocation of consent, the LEA:
- (1) Shall provide prior written notice to the parent that it is ceasing the provision of special education and related services and then may not continue to provide special education and related services;
 - (2) May not use due process procedures, or mediation, in order to obtain agreement or a ruling that the services may be provided to the child;
 - (3) Will not be considered to be in violation of the requirement to make available a free, appropriate public education to the child for the failure to provide the child with the special education and related services for which the LEA requests consent; and
 - (4) Is not required to convene an IEP Team meeting or develop an IEP for the child after the date of the revocation of consent.

Revocation of consent is not retroactive and the LEA is not required to amend the child's education records to remove any references to the child's prior receipt of special education services.

2363.9 Distribution and Explanation of the IEP Document (34 CFR § 300.323(d))

- (a) The student's IEP shall be made accessible to each general education teacher, special education teacher, related service provider, and other service provider who is responsible for its implementation; and
- (b) Each teacher and provider described above shall be informed of:
 - (1) His or her specific responsibilities related to implementing the —child's IEP; and

2363.10 IEP Requirements for Placements by LEAs in Independent Schools or Tutorial Programs (34 CFR § 300.325)

- (a) Before an LEA places a student eligible for special education services in, or refers a student to, an independent school, or a tutorial program, the LEA shall initiate and conduct a meeting to develop an IEP for the student that reflects the change in placement.
- (b) The LEA's placement shall be at no cost to the parents and the independent school or tutorial program shall provide an education that meets the standards that apply to education provided by the local LEA.
- (1) Placements by LEAs in independent schools shall be in schools that have been approved according to Rule 2228.
- (2) Placements by LEAs in tutorial programs shall be in programs that have been approved according to Rule 2230.
- (c) The LEA shall ensure that a representative of the independent school or tutorial program either attends the meeting or is able to participate by other methods including individual or conference telephone calls.
- (d) After a child with a disability enters an independent school or a tutorial program, any meetings to review and revise the student's IEP may be initiated and conducted by the school or tutorial program in accordance with the written agreement as entered into in conformance with Rule 2228.4.2. If the independent school or tutorial program initiates and conducts these meetings, the LEA shall ensure, to the extent required by Rule 2363.4, that an LEA Representative is involved in any decision about the student's IEP and agrees to any proposed changes in the IEP before those changes are implemented. Parent participation shall be required and documented as set forth in Rule 2363.4.

- (e) When an independent school or a tutorial program implements a student's IEP, responsibility for compliance with the special education regulations with respect to that student remains with the LEA.

2363.11 IEP For A Student Moving Into The LEA When The Student Has Been Eligible Or Was Being Evaluated For Special Education In Another State Or In Another Vermont LEA (34 CFR § 300.323(e) and (f))

- (a) Child Moving From Another Vermont LEA — If a child eligible for special education services moves from one Vermont LEA to another, the receiving LEA shall either adopt the IEP the former LEA developed for the child or develop a new IEP for the child. The receiving LEA shall implement the current IEP to the extent possible until a new IEP is developed. In the absence of exceptional circumstances, IEP services shall commence within one week of the time the child enrolls in the receiving LEA.
- (b) Child Moving From an Out-Of-State LEA — If a child eligible for special education services in another state moves into a Vermont LEA within the same school year, the receiving LEA, in consultation with the parent, shall provide a FAPE to that child, including services comparable to those described in the child's IEP from the previous school, until the Vermont LEA:
 - (1) Conducts an evaluation to determine initial eligibility in Vermont; and
 - (2) If eligible, develops, adopts, and implements a new IEP.
- (c) Child Moving During an Evaluation Process – If a child transfers to another LEA within the state or moves into a Vermont school from out of state, the completion of the evaluation shall be coordinated and completed by the new school, including documentation with the parents of the child of the expected completion date of the evaluation should it differ from the original expected date of completion. This evaluation should be completed as expeditiously as possible.

- (d) To facilitate the transition of a child described in (a) and (b) of this rule the previous LEA and the child's new LEA shall take reasonable steps to promptly send and receive, in accordance with the provisions of Family Education Rights and Privacy Act (FERPA), the child's records, including the IEP, supporting documents and any other records relating to the child's special education and related services. This rule may not be interpreted to limit either the previous LEA or the new LEA's responsibilities pursuant to Rule 2365.2.12 and 2365.2.13.

2363.12 IEP Accountability

- (a) Each LEA shall:
- (1) Provide special education and related services to an eligible student in accordance with the student's IEP; and
 - (2) Make a good faith effort to assist the student to achieve the goals and objectives or benchmarks listed in the IEP.
- (b) These rules do not require that an LEA, teacher, or other person be held accountable if a student does not achieve the growth projected in the annual goals and benchmarks or objectives. However, these rules do not prohibit an LEA from establishing its own accountability systems.
- (c) Nothing in this section limits a parent's right to ask for revisions of the student's IEP or to invoke due process procedures if the parent feels that the efforts required in paragraph (a) of this section are not being made.

2364 Least Restrictive Environment (LRE)

2364.1 General LRE Requirements (34 CFR § 300.114)

- (a) Each LEA shall ensure that:
- (1) A student eligible for special education services shall be educated with his or her non-disabled chronological age peers, to the maximum extent appropriate in the school he or she would attend if he or she did not have a disability; and
 - (2) Special classes, separate schooling or other removal of children with disabilities from the general educational environment shall occur only if the nature or severity of the child's disability is such that education in general classes with the use of supplementary aids and services cannot be achieved satisfactorily.
- (b) Pursuant to 16 V.S.A § 2959b, the IEP team may consider the cost of the provision of special education or related services to the child if:
- (1) The IEP has been developed with the parents in accordance with Rules 2363;
 - (2) The IEP team has determined that the child's placement contained in the IEP is appropriate for the child,
 - (3) Each of the options under consideration by the IEP team for fulfilling the requirements of the child's IEP would constitute a free appropriate public education in the least restrictive environment for the child, and
 - (4) The funding mechanism for the special education service was not used to deny a free appropriate public education to the student.

2364.2 Continuum of Alternative Placements (34 CFR § 300.115)

- (a) Each LEA shall ensure that a continuum of alternative placements is available to meet the needs of children who are receiving IEP services.
- (b) The continuum shall include:
- (1) Instruction in general education classes, special classes, special schools, independent schools, home instruction and instruction in hospitals, and residential facilities; and
 - (2) Provisions for supplementary services (such as resource room or itinerant instruction) to be provided in conjunction with general education class placements.

2364.3 Placements (34 CFR § 300.116)

- (a) The IEP team shall determine the educational placement for the child given the following:
 - (1) Educational placement refers to the provision of special education and related services rather than a specific site;
 - (2) The LEA determines the specific site of the educational placement, such as the specific classroom or specific school.
- (b) Placement decisions shall be made on the basis of the student’s individual circumstances and not on the basis of the student’s disability category.
- (c) Unless the IEP of a child with a disability requires some other arrangement, the child shall be educated in the school that he or she would attend if nondisabled.
- (d) Barriers to the participation of students with disabilities in the general education environment shall be addressed whenever possible by the provision of accommodations, modifications, and supplementary aids and services rather than by placement in separate programs.
- (e) A child with a disability shall not be removed from education in age-appropriate general classrooms solely because of needed modifications in the general curriculum.
- (f) In selecting the LRE, consideration shall be given to any potential harmful effect on the student or on the quality of services that he or she needs.
- (g) The placement decided upon shall be:
 - (1) Determined at least annually;
 - (2) Consistent with the other provisions of the child's IEP; and
 - (3) As close as possible to the child's home, unless the parent agrees otherwise.

23646.49.12.2 Early Notification to the Secretary

Commented [CJ144]: Technical edit for consistent numbering.

(a) Each LEA shall provide timely notification to the Secretary, in writing, with a copy sent to the student's parents, that residential placement is being considered as a possible option for inclusion in the student's IEP when there has been:

- (1) A recommendation by the Evaluation and Planning Team for residential placement;
- (2) A unilateral residential placement by the parents or by another state agency, pursuant to 16 V.S.A. § 2942(7);
- (3) An annual review for a student already in residential placement; or
- (4) When any circumstance warrants consideration by the LEA that residential placement is a possible option for inclusion in a student's IEP.

Nothing herein shall be construed to mean that a student who falls within one of the above four categories necessarily requires residential placement. Additionally, nothing herein shall be construed to mean that notice to the Secretary represents a decision of the IEP participants.

(b) Reimbursement for residential placements shall be for placements from the date the Agency receives the notification in accord with this section. This requirement shall not apply to emergency placements made due to life-threatening events to a child or to other exceptional circumstances approved by the Secretary or designee after request by an LEA and recommendation of the residential review team.

2368.2 School Districts without a Public School

A school district that does not maintain a public school or has not designated, in accordance with applicable law, an approved independent school at the grade level needed by a resident student eligible for special education, shall provide the student a free appropriate public education. All special education evaluations, planning and due process procedures, as required by these rules and by federal law, shall be made available to students who are referred for a special education evaluation or who are eligible for special education and to their parents. The location for IEP services shall be determined in the following manner:

- (a) LEAs are not required to pay for the cost of education, including special education and related services, of a child eligible for special education at an independent school or facility, if the LEA has offered to make a FAPE available to the child and the parents elected to place the child in an independent school or facility. However, the LEA shall include that child in the population whose needs are addressed consistent with Rules 2368.1.1 through 2368.1.11.
- (b) Reimbursement for independent school placement. A parental placement may be found to be appropriate by a hearing officer or a court even if it does not meet the State standards that apply to education provided by the Agency and LEAs.
- (c) Limitation on reimbursement. The cost of reimbursement described in paragraph (b) of this section may be reduced or denied--
 - (1) If--
