Welcome to the COVID-19 pop-up testing portal.
Through this portal you can register for an account
for COVID-19 testing at a pop-up testing event run
by the Vermont Department of Health. Once your
results are ready, you can log in to see your test
results.

To register:
1. Create an account.
2. Check your email to verify your account and
   get your Patient ID (check your spam folder if
   you don't see the email).
3. Log in with your Patient ID.
4. Register for a testing event.

For help or technical assistance: Please call the
Vermont Department of Health COVID-19 Call
Center at (802) 863-7240

Information about Specimen Collection

For initial diagnostic testing for SARS-CoV-2, CDC recommends collecting and testing an upper respiratory specimen. The Vermont Department of Health is currently doing nasopharyngeal (NP) or anterior nares nasal swab specimen collection.

NP specimen collection for COVID-19 testing is done by inserting a mini-tip swab with a flexible shaft through the nostril parallel to the palate (mouth), not upwards, until resistance is encountered or the distance is equivalent to that from the ear to the nostril of the patient, indicating contact with the nasopharynx. Then the swab is gently rubbed and rolled or held in place for several seconds to absorb secretions. The swab will then slowly be removed while rotating it.

Anterior Nares nasal swab is done by gently inserting a swab into the nostril at least 1 cm (0.5 inch) and firmly sample the nasal membrane by rotating the swab at least 3 times and leaving in place for 10 to 15 seconds. Then gently removing the swab and doing specimen collection in the other nostril with the same swab.

I have reviewed the information on how a COVID-19 specimen collection is performed and have had the opportunity to ask questions. I give my consent for the Vermont Department of Health to perform specimen collection and subsequent testing of that specimen for COVID-19.

☐ I Agree

If Individual to be tested is under 18 years of age *

Parent/Legal Guardian (If minor is in state custody, consent of an authorized representative is required.)

Schedule Appointment

* Is the attendee symptomatic, as defined by the CDC?

○ Yes   ● No

Symptoms may appear 2-14 days after exposure to the virus. People with these symptoms may have COVID-19.

Fever or chills, cough, shortness of breath or difficulty breathing, fatigue, muscle or body aches, headache, new loss of taste or smell, sore throat, congestion or runny nose, nausea or vomiting, and diarrhea.

Look for emergency warning signs for COVID-19. If someone is showing any of these signs, seek emergency medical care immediately: trouble breathing, persistent pain or pressure in the chest, new confusion, inability to wake or stay awake, bluish lips or face.

Cancel   OK

Click NO. IF you are symptomatic on the day of testing, you are expected to stay at home. Do not come in to be tested.

Choose any available time. The time you
choose DOES NOT MATTER. You can come
during your school's testing window.

This confirms your appointment. Be sure you are scheduled
for HUUSD testing.

You should receive a confirmation email from VERMONT AHS once you
are registered for testing. If you do not receive a confirmation email
listing HUUSD as the testing location, you are NOT registered. Please try
again. Reach out to your school nurse or HUUSD COVID Coordinator
(aconyers@huusd.org), or call 863-7240 Option 8 for assistance.
