

Strategic Planning Workshop for Effective Data Use

School, District and SU teams are invited to join us for a FREE, full day of strategic planning focused on using data more effectively to impact teaching and learning.

For teams that attended last August and created action plans, the Demonstrated Success (DS) team will support you in assessing your progress and revising your goals and actions steps.

For teams joining us for the first time, DS coaches will lead you through new learning, facilitated self-reflection, articulation of growth goals and development of a strategic plan to achieve those goals.

Teams will have plenty of opportunity to exchange effective ideas and collaboratively problem solve data-use challenges.

Prior to the day, we will survey attending teams to enable the DS team to design differentiated coaching that aims to meet the needs of all participants.

This workshop
has a limit of
10 teams, so
SIGN UP NOW!

Choice of Dates and Locations

8:30am - 3:00pm

August 12 - Burlington

August 13 - Goshen

August 15 - Manchester
